### INSTALLATION

The officers of the Young People's Christian Union were installed before

a large audience at the Universalist church on Sunday evening. The installing officer was Miss Florence M. French of Portland, Me., national superintendent of Junior work, who gave a talk on the opportunities and tasks of the unions. The new officers are as follows: President, Alfred E. Gray. Vice President, Percy Joy. Secretary, Miss Florence Garrett.

Corresponding secretary, Miss Elsie Whittier. Treasurer, Miss Ella Lowie.

### THE WEATHER

..... Monday night and  
..... CLOUDY Tuesday—Cloudy and  
..... cool with a few scattering fall showers in New England.

## SUNDAY GAMBLERS

### Heavy Fine for Card Players in Court Today

A bunch of Sunday gamblers tossed up \$101.40 in police court today for squandering on a five cent limit. At the church bells were ringing on the Sabbath the liquor squad of the police department were sent out on a hunt for the goods. They called at a residence at the corner of Green and Market street, where the booze was missing, but the game was on in full blast. There was much confusion when the police appeared, but the gang got busy too late. The police cleared the room and arrested Nino Caminatti, Giuseppe Caminatti, Amero Marcello, Lazareno Camprilli, Antonio Sorafini and Albert Nari. In court they waived the reading of the writ, pleaded guilty and gave up \$10.00 and costs of \$6.90 each. Several of the party did not belong in this city, but came over from York and other places to show the local manipulators of the paste board how to play the game. Robert Dowhower, charged with assault on Robert A. Long, was fined \$5.00 and costs of \$6.90. Long had the appearance of a man that had been struck by a trip hammer, as a result of a pounding he got on Daniel street. Dr. Johnston, who attended him, told the court that it was a miracle that the man did not lose the sight of his eyes as he was assaulted while wearing eye glasses. The case against Long was not pressed. William Daley of Saco drunk, was released.

## TAFT AND ROOSEVELT CONFER

New Haven, Sept. 19.—A conference is in progress here today between President Taft, ex-President Roosevelt, Lloyd C. Griscom, Otto C. Hannard and Secretary Norton over the New York situation. Mr. Norton stated that the conference was arranged at the request of Mr. Griscom, probably representing Colonel Roosevelt, and that President Taft consented. They were luncheon guests of President Hadley of Yale.

### DEAD AT NORTH ADAMS

Mrs. E. P. Lawrence Passes Away at Sanitarium on Sunday

The sad news of the death of Mrs. Rose M. Lawrence, wife of E. Percy Lawrence, reached her friends in this city today. Mrs. Lawrence passed away on Sunday evening in a sanitarium at North Adams, Mass., where she went a short time ago with hope of regaining her health. Deceased was well known and liked for her cheerful disposition and her kindness of heart. She had a large circle of friends and acquaintances in this city, who are filled with sorrow in learning of her death.

### TUNGSTEN LAMPS

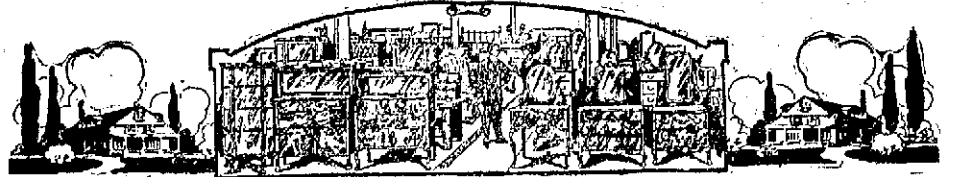

(The trade name recently given to the Tungsten Lamp is Mazda Lamp, but means nothing except a trade name.)

#### Reduction in Price

Customers entitled to free renewals of carbon incandescent lamps can now obtain Tungsten Lamps in exchange, for the following excess prices:

## If It's Home Furnishings You Need—See Us.

Doesn't it stand to reason that your needs and fancies can be better suited from a large stock than from a small one? Is it not equally certain that a house that has been for the length of time we have been furnishing homes in this locality and is today fitting up more of them than ever, must be pretty near right in goods, in prices and in treatment of its patrons?

You want values, not so much talk—you want satisfaction, not sentiment. Whether you seek the plain home necessities for two or three small rooms or the comfort and luxury of a well furnished large house, it is equally to your advantage to make this store your source of supply. Stocks are very full now, so come now and learn of the right things for fall furnishing.

## EVENTS OF ELIOT

### Electricians won Ball Game on Saturday

### Happenings On the Line of the Electric Railway

Eliot, Me., Sept. 19.—The navy yard electricians scored 12 while the Eliot team accumulated 6 runs on the diamonds by the Congregational church on Saturday afternoon. The battery for the electricians was Hamilton and Grant, for the Eliot team Liebman and Nelson. Two Manchester, N. H., people, Jesse Markey and Mrs. Angie Filley are visiting friends here. There was a heavy trolley traffic from Dover and South Berwick through Eliot to the Reaches on Sunday. It was probably the last warm Sunday of the year. Much of the Atlantic Shore Line track in town has been regraded and rebalanced with dirt from the Quamphagan pit.

Deacon Abraham Hill will make the next Sunday afternoon service at the No. 2 school house a memorial service for the late Augustus B. Shapleigh. Men who have passed a lifetime as a neighbor to Mr. Shapleigh and were associated with him on the various activities of his life. The York Mail car, which had been running via Eliot since the mishap to Sewall's bridge in York, went back on the Kittery route this morning. Contractor Alfred Spinney of South Eliot has the bridge repairs so nearly completed that cars are running over it. The little son of Mr. and Mrs. Ernest O. Seales, who has been so seriously ill with acute indigestion, is somewhat better.

### ITS ALMOST A JOKE NOW

Box 19 Has Cost the City Lots of Unnecessary Expense

Another foolish alarm from box 19 of the fire alarm today. If there is anything that has cost the city of Portsmouth a good bit of money it's the pulling in of the box on the corner of Water and Court streets. The alarms sent in from this box is almost a joke.

### A WORKING BOYS CLUB

Secretary Booth of the Young Men's Christian Association and other workers in the association are planning for a working boys club as one of the features of the coming winter.

It is hoped that Lucius Tuttle, ex-Governor Bates of Massachusetts, ex-Governor Proctor of Vermont, and other eminent gentlemen can be obtained for the list of lectures before the club.

### COAL FOR LIFE SAVERS

The contract for the winter supply of coal is to be furnished the life saving stations at Portsmouth harbor, Wallis sands and Rye Beach has been awarded by the department to the Consolidation Coal company of this city.

## REOPEN PORTSMOUTH FORGE

### Hopes That This May Be Done By A Firm From Salem, Mass.

On Saturday, a representative of a Salem business firm came to this city and, with some members of the Portsmouth Manufacturing and Power company, present owners of the former forge plant, looked over the property with a possible chance of locating in this city. It is understood that the Salem firm will not renew its lease, which expires shortly and is to leave that city. The Salem man, Mr. Baker, is understood to be well satisfied in his inspection of the Portsmouth property, and stated that other members of the firm would come here this week to take a look at the same. At present another firm at Chester Pa., has an option on the property which it has held since the forge company closed its doors.

If the Salem firm decides to come here and rent the unoccupied property the owners will take the matter up with the Pennsylvania firm, with the idea of getting one or the other to start up. Outside of the lower floor of the main building, occupied by the Ellery Twist Drill Company, there is considerable room that can be utilized. The second and third floors are vacant, also two wings and the boiler and hammer shops. If this is not enough room for any firm that would come here there is much land at the west of the building and in the rear near the railroad, where large additions could be erected.

## AUGUSTUS WALDEN

### Death of One of Portsmouth's Best Known Citizens

Augustus Walden, one of Portsmouth's best known and highly respected citizens died at his home on Pleasant street this morning at 1:30 o'clock, after a long and painful illness.

He was born in this city May 13, 1830, and his early education was gained in the public schools of his native town.

After completing his schooling he entered the grocery store of Isaac Nelson as a clerk. After familiariz-

ing himself with the business, he engaged in business for himself.

Of late years he has been associated with ex-Mayor John J. Laskey, until ill health caused him to give up.

Possessed of a genial disposition Mr. Walden made friends with all whom he came in contact, and he was noted for his candor.

In politics he was a staunch Democrat and for years one of the leaders of the party in "Old Sabastopol." He never sought office, although he held the office of overseer of the poor for many years.

He is survived by one daughter, Miss Nellie M. Walden, who has been a devoted attendant of the deceased.

He was a member of Oak Castle, Knights of the Golden Eagle, and Portsmouth council, United Order American Mechanics, also a life long attendant at the Universalist church.

## FROM EXETER

## The Academy Will Open Wednesday

### Newmarket Men To Be Naturalized

Exeter, Sept. 19.—The 128th year of the academy will open on Wednesday, from every indication with the year was 509. It is expected that the year was 509. It is expected that the year was 509. It is expected that the year was 509.

The public schools reopened last week with four changes in the corps of teachers and a total enrollment of 175 pupils.

George X. Gardner, who graduated last June from the Lawrence scientific school at Harvard, has entered the employ of the General Electric company at Schenectady.

Albertus T. Dudley has been granted a year's leave of absence by the Middle school of Boston, and with Mrs. Dudley and daughter, Frances G. Dudley, will sail for Europe early next winter to remain until spring. Miss Eleanor Quimby of Newton will meanwhile occupy the Dudley residence.

Miss I. Louise Mason will this year have the supervision of drawing in a Springfield school at a material increase of salary over that last year received for like work at Wellesley, Mass.

Rev. Fr. John E. Pinea was in Montreal for the last three days of the eucharistic congress, and returning spends a week in trips to various places of interest.

New Hampshire college freshmen came here on Saturday for the taking of their first class photograph. At the attempt to leave Durham in the early morning seven members of the class were captured by the sophomores, who thus gained the advantage of the interclass contest. In due time the seven were released and noon saw the entire class, four girls included, assembled here. They were photographed on the steps of the county building.

The Exeter Machine Works is soon to increase its establishment by the acquisition of the Hyde Park, Mass., woolen mills which will be fitted with the necessary machinery for the manufacturing of the Symonds commercial cars, motor car wheels, gas-line engines and the like. The Hyde Park company has not been in operation for several years. It covers a space of about four acres, and is assessed for about \$100,000. The original cost being about \$200,000. The company will resume operations with about seventy-five hands, but this number will be increased from time to time, so that fully 300 will soon be employed. The plant is situated in Hyde Park, Mass.

Robert Mitchell of Newmarket, state transient officer, was in town on Saturday conferring with the members of the school board here. Mr. Mitchell states that the educational condition all over the state has much improved during the past year, and it is seldom that the law is broken by the scholars leaving school for work, when under the age of 16 years. Cases of this nature, when reported, states Mr. Mitchell, were mostly among the aliens. "There are not many transients in these days," said Mr. Mitchell, "and in cases where the children do not attend school it is generally the fault of the parents. On the whole the condition is very good in our state." He was in town attending to some local matters in regard to a non-attendance of school where the parents claimed the children to be over the age limit required by law.

H. A. Tarbell of Hollis, a student at New Hampshire college, and a member of the freshman class which visited here on Saturday for the purpose of having their pictures taken, reported at the police headquarters that he had lost the sum of \$30 during his brief visit here during the morning hours. He had no idea where he lost it, but remembers having it when on the train, and though it was possible that he left his pocketbook in a telephone booth where he went soon after arriving, it was an unfortunate occurrence for the student, and every means of procuring it was taken by the police.

The funeral services of Miss Mary Frances Emery, who died on Thursday, were held on Saturday afternoon at her late home on Water street, conducted by Rev. S. H. Dana, pastor of the Phillips church. They were private and attended by immediate relatives.

Rev. Fr. Charles J. Luddy of the

cathedral church at Manchester, and a Phillips Exeter academy alumnus, was a visitor here Saturday, having completed his vacation spent at home in Exeter and elsewhere.

A party of six aliens from Newmarket paid a visit to Clerk of Court Charles H. Knight on Saturday for the purpose of obtaining their first papers in the process of naturalization. It is understood that thirteen more are to visit here in the near future for the same purpose.

## HAVE MADE AGREEMENT

Fraternities of New Hampshire College Adopt Rules

Durham, Sept. 19.—The fraternities of New Hampshire college have adopted a new inter-fraternity agreement for the year of 1910 and 1911. It differs in a few respects from the one of previous years.

The agreement is signed by the representatives of the college fraternity in Casque and Gasket, the junior senior society, which has the regulation of fraternity affairs.

The new agreement is as follows:

"We, the undersigned, acting for our respective fraternities, do promise and agree not to invite any student who has registered in the college for the first time after June 15, 1910, to join our fraternity, before 12 m., the third Wednesday of Nov. 1910.

"The following rules shall be observed: No freshman shall be 'rush-ed' after 8 o'clock p. m., except on a Saturday evening; during the 'chinning' season no fraternity shall hold more than two freshmen parties on evenings other than Saturday; all 'bids' shall be given in the form of a uniformly worded letter, presented directly after chapel, Nov. 16, 1910; no 'engagements' shall be made, or 'chinning' done before 7 p. m., Nov. 16, 1910; no pledge plus shall be put on until forty-eight hours after presentation of the above mentioned letter; after Nov. 16, 1910, a student shall not be invited to join our fraternity until thirty-one days after his registration; time of registration, 12 m.

"No student shall be considered pledged until he wears his pledge insignia publicly.

"Furthermore, we promise and agree to allow no student, registered for the first time after June 15, 1910, to room or board in our fraternity houses before the third Saturday of November, 1910.

"A copy of these rules shall be given to each new student at time of registration."

This agreement is signed on behalf of Zeta Epsilon Zeta by Francis M. Hobbs; Kappa Sigma, Beta Kappa chapter, by Benjamin F. Proud; Theta Chi, Zeta chapter, by Winfred Morrill; Beta Phi, by Othman A. Arozlan; Gamma Theta, Albert H. Brown.

## FAMOUS METHODIST MINISTER

Rev. Edward Warren Virgin Dropped Dead at Dedham, Mass.

Boston, Sept. 19.—Rev. Edward Warren Virgin, author and editor of religious, historical and genealogical works, and a Methodist clergyman for half a century, dropped dead at his home in Dedham, on Sunday aged 74 years.

He was a delegate to the 1905 world's Sunday school convention at Paris, and had been a Mason for over fifty years, having reached the thirty-second degree. He served three terms on the United States Christian commission during the Civil war, and was at the siege of Chattanooga.

The Rev. Mr. Virgin was born in Marlboro.

He leaves a widow and two children, Edward Harmon Virgin, librarian of the General Theological seminary of New York city, and Miss Elsie A. Virgin of Dedham.

## NEW WORM WARS ON TREES

Diminutive Pest Makes Forests Look Fire Swept

Mount Holly, N. J., Sept. 19.—A new kind of plague has made its appearance in some of the forests of Burlington county. It is a greenish yellow worm, about a quarter of an inch long and as fine as ordinary cotton. These worms hatch on the under side of birch leaves, and can be found by the millions in some districts, especially around Cookstown. They seem to have an enormous appetite, and it does not take them long to strip the green substance from the leaves on which they are hatched. After the leaves have been thus attacked they turn brown and become as dry as powder. Wherever there are large quantities of birch in the woods the trees look as though they had been swept by fire.

The Boston and Maine railroad is contemplating the installation of a private heating system for the depot, baggage room, and express office.

Whether Dover will have to secure at large expense in the near future an addition to its water supply from some distant pond or stream or from scattered artesian wells depends upon the success of the attempt to secure such a supply from artesian wells here. The two wells which were sunk near the main pumping station last spring, 300 and 350 feet respectively, have just been equipped with air

## TUTTLE REFUSES

## To Be a Candidate for Governor of Massachusetts

Boston, Sept. 19.—Lucius Tuttle, who has just retired from the presidency of the Boston and Maine railroad, has announced that nothing would induce him to enter any contest for a public office.

Thursday representatives of the railroad labor unions in this state asked Mr. Tuttle to become a candidate for governor this fall. Mr. Tuttle's reply is as follows:

"I have carefully considered this matter and nothing would induce me to enter a contest for any public office, even if I knew in advance that I should be unanimously elected. I have no desire to enter politics in any way whatever."

## DOVER DOINGS

Dover, Sept. 19.—Patrick Riley, aged 45 years, died on Saturday at his home here, after a lingering illness. He is survived by two sisters, Miss Mary Riley of Dover and Mrs. C. McClellan of Halifax, N. S.; and five brothers, Terrence of Lawrence, Mass.; Thomas of Lowell, Mass.; and John, Charles Edmund of this city. The funeral was held at St. Mary's church Sunday afternoon and was attended by relatives and friends. Rev. John Moran officiated. Interment took place in the family burial lot in the new Catholic cemetery.

George H. Meserve, a well known resident of Dover, died on Saturday at his home on the Bellamy road, age 65 years. He was born in this city, where he spent his entire life and devoted himself chiefly to farming. He was able to be about town up to within a few weeks ago, although he had been ailing during the last two years. Mr. Meserve is survived by three daughters, four sons, a sister, four brothers and several grandchildren. The funeral was held at his late home this afternoon and burial was in the family burial lot at Pine Hill cemetery.

A serious stabbing took place on Saturday afternoon, Nicholas Kishany, aged 21, being the victim and Nispara Baskakra, aged 20, the alleged assailant. Both are Syrians. Baskakra, whose clothing bore evidence of a bloody encounter, was arrested in Salmon Falls by Policeman Fall and was brought here in the evening by Patrolmen Chesley and Cornell. He was better known here as Philip Joseph. The prisoner was taken to the Hayes hospital, where Kishany is a patient, and was identified by the latter as the man who assaulted him. Kishany is suffering from two bad scalp wounds and a stab in the upper part of the chest, all inflicted with a knife. His left lung is said to have been pierced.

St. Charles' French parochial school has 230 pupils, an increase of 40 over last year.

Miss Florence W. Foss, daughter of Ex-Postmaster Fred H. Foss of this city, who has been the instructor in art at Mt. Holyoke college the past four years, and who graduated from the institution in 1905, will enter upon a course of study at Wellesley college next week to fit herself for receiving the master of arts degree. She has been granted a year's leave of absence from Mt. Holyoke.

Dover council, Knights of Columbus, will organize a Washington club, whose members will attend the unveiling of the monument to Christopher Columbus at the national capital Oct. 12, 1911. It is expected that at least 35 members of the council will attend the unveiling.

Olive Branch lodge, Knights of Pythias, the largest Pythian lodge in the state, took in three new members.

One of the best games of the season at Central park was the third of the new series before a large crowd between Dover and Somersworth Saturday. Dover won, 2 to 0. Each team had taken a game previously.

Miss Florence W. Foss, daughter of former Postmaster Fred H. Foss of this city, during the past four years instructor in art at Mount Holyoke college, has been granted a year's leave of absence to fit herself for the degree of master of arts. She will take the work at Wellesley college and will leave for there the coming week. Miss Foss, since her graduation from Mount Holyoke in 1905 has studied a year abroad.

Whether Dover will have to secure at large expense in the near future an addition to its water supply from some distant pond or stream or from scattered artesian wells depends upon the success of the attempt to secure such a supply from artesian wells here. The two wells which were sunk near the main pumping station last spring, 300 and 350 feet respectively, have just been equipped with air

compressors for forcing the water they contain into the receding basin.

At the time the wells were bored they showed together on a test of several hours a capacity of from 150,000 to 225,000 gallons a day. Whether this flow will hold out any length of time remains to be seen.

## YOUNG McLANE BADLY INJURED

Arlington, Mass., Sept. 19.—With Charles M. McLane, son of John McLane of Milford, N. H., ex-governor of New Hampshire in a serious condition, an automobile conveying the sick man, his brother, Clinton M., chief of police Thomas O. D. Urquhart, Dr. Harold A. Webb and Miss Ellingsworth of 1322 Commonwealth avenue, was rushed from this town to the Massachusetts general hospital on Sunday afternoon.

About five o'clock, the automobile driven by Clinton McLane, stopped in front of the police station and Chief Urquhart was asked for assistance, as Charles McLane was apparently in a very bad way. Dr. Webb was called and upon hurried examination, found that the young man was suffering from some injury to his head and was fast sinking and he ordered his removal to the hospital.

The young man, who by this time was unconscious, was placed across the lap of Dr. Webb and Chief Urquhart and the trip began. Upon arrival at the hospital the young man was still living, but was in a serious condition.

The young man has been visiting Edward Ellingsworth at his home at 1322 Commonwealth avenue and on Saturday afternoon the two made a trip to Revere beach and took in the attractions. While riding on a revolving platform McLane was thrown off, striking on his head. He was dazed for a time and examined by physicians who stated that he was all right.

The two returned to the Ellingsworth home and on Sunday afternoon young McLane, not feeling well, signified his desire to return to his father's home at Milford, N. H., and his brother, accompanied by Miss Ellingsworth, started with him. All went well until Arlington Center was reached and suddenly young McLane was seized with convulsions and soon lapsed into unconsciousness.

They had gone a short way down Mystic street when the condition of the young man was discovered and then the machine was run back to the police station.

Dr. Webb was of the opinion that a hemorrhage had occurred in the brain and stated that the chances of the young man's recovery were very slight.

Ex-Gov. and Mrs. McLane are on their way to Detroit, and word was telegraphed ahead of the accident. The young man's condition remains serious.

## No Information at Revere

Revere, Mass., Sept. 19.—The proprietor of the amusement place at which Charles M. McLane, son of Ex-Gov. John McLane of New Hampshire, is reported to have received serious injuries Saturday, stated that he had not heard of the accident.

He said that a physician is constantly in attendance and that on Saturday night he asked the doctor if his services had been required during the day. The latter, according to the proprietor, reported that a young man, whose name he did not know, had bumped his head in stumbling on one of the amusement machines, but that the injury had not been thought serious.

## TWO PORTSMOUTH MEN

Among the Country Nominees of the Socialist Party

Eighteen members of the Socialist party in Rockingham county met in convention on Saturday at the electric railway junction at Smithtown, and formally placed a county ticket in nomination, as follows:

For County Solicitor—J. O. Watts of Seabrook.

For County Commissioners—William T. Lucas of Portsmouth, Francis A. Clay of Newfields, Philip T. Lewis of Londonderry.

For Register of Deeds—Harlow J. Colby of Newton.

For Register of Probate—John Hill of Portsmouth.

## BOATS FOR LIFE SAVERS

Supt. S. H. Harding of the first district has been instructed to inform the department of the size, model and equipment of the boats needed for the new station to be opened at Appledore Island, Isles of Shoals.

## STRATHAM

The Stratham Woman's Christian Temperance union held its first meeting for this year in the Congregational vestry on Tuesday afternoon, and decided to publish a few things they have accomplished during the past year. They have held six public services in the churches and the pastors have delivered lectures well worth hearing. The attendance has been good and also the collections for local work. One of these services was a Willard commemorative service, and \$2.35 was sent to the memorial fund. They have also established boxes at the Center for the distribution of temperance literature which is free to all, and have supplied the four schools in town with the Crusader Monthly for the last two years. Five dollars has been realized from the sale of W. C. T. U. calendars. Twenty dollars has been raised for the no-license campaign fund, given by the union and solicited from friends of the cause. The money will go into the state treasury to be used in campaign work this fall.

## NEWMARKET

Fifty Italians employed by the Dominion Contracting company of New York on the construction of the double track on the western division of the Boston and Maine railroad between Newmarket and Durham, struck on Saturday, it is claimed by them, because they were unable to get four weeks and two days' pay due them, and all work on the job has been suspended pending a settlement of the trouble. Each of the fifty Italians claim a month's wages due him amounting to \$45 each, and the two foremen claim wages amounting to \$75 each. A teamster employed on the job says the firm owes him in wages and for team hire \$225. For some few weeks past the workmen have been discontented. It is claimed a number of checks given some of them by the firm for labor have proved worthless.

## TO COMMAND THE CHICAGO

Boston, Sept. 19.—Lieut. W. R. Farlong, U. S. N., has been ordered to the command of the U. S. S. Chicago, to work in conjunction with Lieut. Commander Goodridge of the naval brigade.

The two officers will map out work for the coming winter for the brigade.

The arc lights on Middle street have been replaced by large tungsten lights and several new lights installed. The general effect is an improvement. Some of the lights installed instead of the arcs in other parts of the city look like red beans on the top of a pole.

## CHANLER'S LOVE FOR CAVALIERI

Had Its Inception In Theatre  
In New York City

### DID NOT KNOW HER NAME

But Told Friends With Him That He Would Marry Leading Woman In "The Tales of Hoffmann"—Actress Looked Up His Social and Financial Standing—Lawyer Failed to Block Famous Marriage Contract

New York, Sept. 19.—This is the story of Robert W. Chanler's wooing of Lina Cavalieri, and the real story of the marvelous marriage contract he made with her.

Chanler was sheriff of Dutchess county when he first came down to New York with a party of friends. He had in hand the quarterly payment from his \$20,000 allowance. He took his friends to hear "The Tales of Hoffmann," in which the Italian singer was making her debut.

At the end of the first act Chanler is said to have turned to his bucolic group and remarked: "I'm going to marry that woman in the leading part." And he didn't even know her name then. He soon spent his time in the city and his quarterly income upon the fair diva as well.

Mme. Cavalieri looked up Chanler in the social directory and found that he stood with the Anstons—let alone the Chanlers—at the very top of the list. Then, with the same business-like method that characterized her opening of a beauty shop, she looked up his financial status through a lawyer, and the lawyer told her it was very good.

Chanler made assiduous suit. Cavalieri, having looked him up and having received his proffer of marriage, said she'd marry him "out of a friendship purely," if he would make an agreement giving her all the riches he had.

Chanler tried to do it. But Edward Perkins, a slim lawyer from Poughkeepsie, was at that conference, and he was lawyer not only for Robert W. Chanler, but for his estate. When he protested Chanler waved him down.

The tentative ante-nuptial agreement wasn't drawn in Paris at all but in New York. Perkins is an astute lawyer. He let Chanler write away to Cavalieri all his entailed property and his entailed income of \$20,000 per year, and he let him write in some few vacant lots on Tenth avenue which "Bob" could only get an equity out of himself.

And so it came about that it was a French-drawn compact, instead of an American one that gave Mme. Cavalieri what she is to get out of the Chanler estate. It explains also why Mme. Cavalieri didn't give "Bob" his acceptance until she had reached France.

And that was because while Chanler had tried to sign everything over to her, she'd found that his Perkins over here was such an assiduous lawyer that she would prefer to have the real pact done in form by the matrons of her home land.

It is now alleged that Cavalieri as well as Chanler made an ante-nuptial agreement, though the glitzy promise was verbal. In this verbal agreement, the report is that Cavalieri promised to pay all of Chanler's debts if he would settle on her an income of \$20,000 a year. The salient feature of Cavalieri's agreement are:

First—That Cavalieri should pay off Chanler's debts, variously estimated from \$35,000 to \$60,000.

Second—That Cavalieri should free certain parcels of the realty from the mortgage.

Third—That Cavalieri and Chanler should have a common purse, only title to the same should be vested in the wife.

Fourth—That the first \$20,000 out of his income should go, as before, to his first wife, Mrs. Julia Chamberlain Chanler, and his two little girls, Julia, aged 12, and Dorothy, aged 6 years. Chanler was assured by Cavalieri, according to members of the Dutchess county family, that the question of money never would arise between them.

### TO RAISE THE MAINE

Experimental Work Finally Begun In the Harbor of Havana

Havana, Sept. 19.—The bottom of the harbor, near the wreck of the battleship Maine, was tested yesterday by boring near the stern of the vessel. Coral rock was struck at a depth of about 100 feet.

Captain Ferguson of the Maine commission, who expects to be ready for the actual raising of the vessel about November, said that the present work is merely of an experimental nature.

American Girl Weds Viscount London, Sept. 19.—Miss Edith de Lys, formerly soprano soloist at the Park street church in Boston, who in 1902 resigned her position to become a prima donna in "The Defender" company, was married here to Viscount de St. Hilaire, a wealthy Frenchman.

### MME. CURIE

Parisian Woman Who Found Way to Produce Pure Radium

### GIVES NO INTERVIEWS

Mme. Curie Is Very Reticent Concerning Her Latest Discovery

Paris, Sept. 19.—There is no more reticent scientist than Mme. Curie. A recent communication announcing her success in reducing radium to the form of a metal was sent by her to the academy of science by the hand of another, just when she was on the eve of hastening away to an obscure village by the sea for a rest of a couple of weeks. Then she returned to her unpretentious home at Sceaux for a few hours and then proceeded to Brussels to visit the international exposition.

Her paper before the academy of sciences was extremely laconic. Mme. Curie refuses to add anything to it by way of explanation, and her aversion to newspaper interviews seems never to have been more intense than now.

The world will doubtless have to wait for the fuller information until she has made a further communication on the subject to the academy.

### TWO LA FOLLETES MAY BE IN CONGRESS

Senator's Cousin Is Digging For Seat In Lower Branch

Washington, Sept. 19.—There may be another La Follette in the next congress. If there is he will be of exactly the same political stamp as the redoubtable insurgent senator from Wisconsin.

Out in the state of Washington W. N. La Follette, a cousin of Senator Robert M., is running for congress and he is running on an insurgent platform.

Furthermore (his candidate wants to occupy the seat now held by Miles Poindexter of Spokane. Poindexter is the most emphatic insurgent in Washington and he was sent to congress by an insurgent constituency.

Promising situations can be easily imagined with two La Follettes in congress, one in the senate and the other in the house.

### FOUR MEN DROWNED

Power Boat Founders In Heavy Sea Off Plum Island

Newburyport, Mass., Sept. 19.—Four men were drowned when the power boat Comfort foundered off Plum Island. They are: Joseph Baker, 40 years old; William E. Fountain, 33; Percy E. Fountain, 13, and Patrick O'Brien, 38 years old.

Charles S. Fountain, father of two of the men who were drowned, saved himself by swimming ashore. John W. Walton, who, with Percy Fountain and his father, tried to swim to safety, was rescued by life savers.

The party, nearly all mill operatives had left Haverhill bound for Portsmouth. Reaching the mouth of the Merrimack river, just off Plum Island point, great waves raised by a brisk northeast were encountered and finally the boat foundered.

### IN A RECEPTIVE MOOD

Fitzgerald Awaiting Call To Become Candidate For Governor

Boston, Sept. 19.—"It looks as if I might have to take the nomination for governor if Senator Lodge and Governor Draper are going to spend so much of their time talking about me," said Mayor Fitzgerald last night, when asked if he had any reply to make to an attack upon him by the Republican leaders.

When asked to state his position on the nomination Fitzgerald said: "I am waiting for the call. If the Democratic party wants me to stand as the candidate this fall and expresses this sentiment in the convention through its delegates, then I shall accept the nomination and give my best efforts to winning."

Still Driving Out Jews Kiev, Sept. 19.—The police have become more active in expelling Jews, who have been ordered back within the restricted territory.

## DEFENDS RAP AT HIGH COURT

Roosevelt Quotes Taft and  
Lincoln In So Doing

### PRAISES THE PRESIDENT

Goes on Record as Indorsing Many Official Acts of the Administration—Dares His Political Enemies to Fight—Asks If Any Party Is Willing to Take Other Side of His New Nationalism Proposition

Syracuse, N. Y., Sept. 19.—Coming into a stronghold of the opposition, ex-President Roosevelt boldly challenged the opponents of his political doctrines to come out in the open and fight if they dared. He prophesied that if they did they would be beaten.

The former president also warmly commended President Taft as a public official and expressed his approval of a number of the accomplishments of the Taft administration. Roosevelt did not indorse the administration as a whole.

What he did have to say, however, placed him on record for the first time in regard to many of the more important features of it, breaking the silence which he had maintained steadfastly on the subject except for his few brief references to his successor on his western trip.

He also defended his recent criticisms of two decisions of the United States supreme court, made in a speech in Denver, and quoted the words of Mr. Taft, written when he was a judge, to support his contention that the people have the right to criticize decisions of the courts.

"I merely took the view which the learned justice had taken in his dissenting opinion," said Roosevelt. "Those who criticize me are also criticizing a justice of the supreme court, Mr. Harlan."

"If I have erred in commenting as I have commented upon the decisions in question, I err in company with Abraham Lincoln, who, fifty-three years ago, was assailed for his repeated criticisms of the supreme court in the Dred Scott case. Let me quote him: 'We believe in obedience to and respect for the judicial department of government.' But we think the decision erroneous and we shall do what we can to have it overruled."

"Nor do I have to go only to the statement of the past for precedents. The President of the United States, Mr. Taft, has served his country honorably and uprightly in many positions—as judge, as governor of the Philippines, as secretary of war, and now as president, for to him and the congress acting with him we owe the creation of a tariff commission; the adoption of maximum and minimum tariff law treaties with foreign powers; the proper treatment of the Philippines under the tariff; the increase in the efficiency of the interstate commerce law; the beginning of a national legislative program providing for the taxing power in connection with the corporations doing an interstate business; a postal savings bank bill; the constitution of a commission to report a remedy for over-capitalization in connection with the issue of stocks and bonds; but few of his services are more deserving of record than what he said in this very matter of criticism of the judiciary."

"Mr. Taft, speaking as a United States circuit judge, fifteen years ago, said: 'The opportunity freely and publicly to criticize judicial action is of vastly more importance to the body politic than the immunity of courts and judges from unjust aspersions and attack.'"

Alluding again to his "new nationalism," Roosevelt put this clean-cut issue to his critics: "Is any party willing to take the other side of the propositions of which complaint is made? If so, it would be a good thing to have the issue before the people, for in the end the people would most certainly decide in favor of the principles embodied in the new nationalism, because otherwise this country could not continue to be a true republic, a true democracy."

When Roosevelt arrived here from New York the state fair grounds, on which he spoke, were thronged with a crowd of more than 40,000.

Killed by Runaway Horse Boston, Sept. 19.—Miss Mary Wall, aged 37, was fatally injured last night in front of the home of her mother at 7 Wintrop street, Charlestown, when she was knocked down, trampled upon and dragged twenty feet by a runaway horse. She died a few hours later.

New Golf Champion Boston, Sept. 19.—William C. Fownes, Jr., a young millionaire of the Oakmont club of Pittsburg, won the amateur championship of the United States Golf association, having won in the final match at the Country club, Brookline.

Ex-Empress of Mexico Dying Brussels, Sept. 19.—Ex-Empress Marie Charlotte, widow of Emperor Maximilian of Mexico, who has been ill for a long time, is reported to be failing rapidly.

Alleged Spies Arrested Moscow, Sept. 19.—The Prussian lieutenants, Heinze and Wenzel, have been arrested as spies at the maneuvers here.

### SHOOTS NIAGARA RAPIDS

Captain Larsen Makes Trip, but His Motor Boat Is Wrecked

Niagara Falls, N. Y., Sept. 19.—Captain Claus Larsen, in his little motor boat, the Ferro, made a successful trip Sunday from the foot of the cataract through the Whirlpool Rapids to within a mile of Lewiston, a distance of four and one-half miles.

He started from the Maid of the Mist dock at 4:45 and ran on a rock near the American shore at 5:30. Despite the battering in the Whirlpool Rapids, Larsen went through safely, but his boat was leaking badly at the finish and throughout the trip.

Larsen wanted to continue the trip, but, having accomplished the worst part of the journey, he was persuaded to board a trolley for Lewiston, setting the boat adrift.

## WAS IN DIPLOMATIC

SERVICE 56 YEARS

Nelidoff, Russian Ambassador, Succumbs to Apoplexy

Paris, Sept. 19.—Alexander Ivanovitch de Nelidoff, Russian ambassador to France, died here. Nelidoff was stricken with apoplexy.

Alexander de Nelidoff was born in St. Petersburg in 1846. He had been in the government service for fifty-six years, serving as ambassador at Constantinople, Rome and Paris. He was one of the signers of the treaty of San Stefano, which ended the Russo-Turkish war. He was appointed ambassador to France in 1903 and was president of the second Hague peace conference in 1907.

### TO AUCTION CHILDREN

Announcement of Pennsylvania Minister Gets Him Into Trouble

Pittsburg, Sept. 19.—There was near rioting at Circleville Saturday evening, when Rev. Thomas G. Poord, pastor of the Wylie Avenue Baptist church of Pittsburg, after advertising that he would sell two of his five children to the highest bidder, made an effort to auction the children off.

The minister never got an opportunity to finish the sale, as 1000 people protested, and the minister was nearly mobbed.

Nor were matters better Sunday when Poord appeared in the pulpit in Pittsburg, for he was subjected to many slurs there from his congregation, many of whom would listen to no explanation. Late yesterday afternoon Poord declared it had been but a joke on his part, that he had intended to illustrate a certain point with the children as examples, but the crowd took him seriously and made trouble.

### ACQUIRED GREAT RICHES

Tomfohrde a Poor Immigrant When He Landed in Boston

Boston, Sept. 19.—Andreas Tomfohrde, millionaire restaurateur of this city, died at his home at Jamaica Plain Sunday. Death was due to a complication of diseases, chiefly diabetes.

Tomfohrde commenced his business in Boston as a poor immigrant with little money, but a great ambition to succeed. He became one of the ten richest men in Boston.

From the first start of his business career Tomfohrde was a believer in the future of Boston, for he made constant investments in real estate, many of them being in the heart of the city. He was born in Germany in 1845. During 1867 he landed in Boston and in 1870 started in business for himself.

The Weather Almanac, Tuesday, Sept. 20. Sun rises—5:42; sets—5:57. Moon rises—7:05 p. m. High water—12 m.; 13 p. m. Forecast for New England: Partly cloudy; cooler; moderate northeast winds.

## PICTAILS ARE PACKED AWAY

Chinamen of Boston Part With Their Adornment

### EXAMPLE SET BY PRINCE

Movement Which Caused Terror Among Chinese Is Discussed at Feast of Full Moon, at Conclusion of Which Nearly Two Hundred Cut Off Their Long Cherished Queues, Now Considered Obsolete

Boston, Sept. 19.—Chinese residents of Harrison avenue, laundrymen and outside merchants, gathered in Boston's Chinatown yesterday to celebrate the feast of the full moon, one of the oldest religious festivals of their faith, and to decide whether or not the modern Americanized Chinaman should be minus his queue.

There was considerable discussion of the latter question over the chow-maine and chicken omelette, and at the close of the day's celebration about 200 Chinamen cut off their pictails.

The movement was started by the Chinese publicity association of New York some months ago, and at first caused widespread horror among resident Chinese. Then Prince Tsai-Tsai visited this country, and he believed so thoroughly in the practical good of the suggestion that he cut off his own queue and returned to his native country without it.

This was a great step in favor of the new movement and the progressive Chinamen who engineered it were not slow to take advantage of the fact. They sent out word that it would be a good suggestion to discuss the matter at the festival of the full moon, and it is believed that the suggestion was adopted all over the country.

Boston Chinamen were about equally divided on the question. Nearly all concurred in the movement as far as the coming generation was concerned, believing that the youngsters should grow up queueless, but they themselves were unwilling to give up the feature that characterizes them so loyally and reverently for their ancestors.

Leon Ping, who is one of the most influential men in Boston's Chinatown, spoke in favor of the question, but he, too, believes that it should only apply to the growing population, those born in this country. At the close of his talk he admitted that he would be unwilling to give up his own queue.

His partner, Leon Wee, who has just returned from his native land, is an ardent exponent of the new movement. He went to China to bring his wife and young son to this country, and his first act, after the steamer cleared Hong Kong harbor, was to cut the queue from the head of the little fellow. He did not cut off his queue yesterday, but said that he was ready to do so at any time.

Ching Pong, director of one of the largest pottery shops in the city, is a Christianized Chinaman, and so did not attend the meeting. He cut off his queue years ago. He said that the queue was now a mark of slavery, not a mark of loyalty or reverence, that it had long since lost its religious significance, and that the only reason for wearing it was superstition.

Hugh Keon was one of the principle speakers against the new movement. He believes that the modern Chinaman is becoming so Americanized that he is gradually forgetting his native land, his customs and religious observances. He gave as his ultimatum that he would wear his queue until there came to him an imperial edict against it.

The meeting in all the restaurants were exciting, that is after the religious ceremonies were completed, and the feeling seemed to be at high tension. At the conclusion about 200 of the most radical cut off their queues with fitting solemnity, packed them carefully away and bore them out with them.

### PLEADS NOT GUILTY

Former Bank Treasurer Ingersoll Arraigned in His Home

Biddeford, Me., Sept. 19.—A plea of not guilty was entered by Richmond H. Ingersoll before Recorder Rumsey of the municipal court. The formalities of arraignment were held at Ingersoll's home on the four charges of embezzlement for which Ingersoll was arrested on complaint of Charles H. Prescott, president of the York County Savings bank.

As Ingersoll was not well enough to come into court and his counsel, Edward C. Reynolds, decided to waive examination, the arraignment was held at the residence of the aged treasurer of the closed bank.

Bail, which was fixed at \$5000 on each charge, or \$20,000 in all, was furnished by five friends of Ingersoll's.

The Weather Almanac, Tuesday, Sept. 20. Sun rises—5:42; sets—5:57. Moon rises—7:05 p. m. High water—12 m.; 13 p. m. Forecast for New England: Partly cloudy; cooler; moderate northeast winds.

British Steamer Quarantined Rotterdam, Sept. 19.—The British steamer Saxon Prince, from New Orleans, has been quarantined here on account of the death of the cook and the illness of three others of her crew.

## CHARGED WITH MURDER

Rich Widow Is Placed Under Arrest in a Vermont Town

Lunenburg, Vt., Sept. 19.—Mrs. J. M. Dodge, a widow, one of the best known women and the largest property holder in this vicinity, is under close guard in her home, charged with the murder of William Heath, 40, of Dalton, N. H.

When the body of Heath was found in the bedroom of Mrs. Dodge, he was lying on his back with a paint brush loosely grasped in his right hand, and a paint pot to the left of his body. The revolver was lying on the top of a bureau with three chambers empty, all bearing marks of having been recently fired.

The bureau was distant about five feet from where the body of Heath was lying and bore no marks of blood, which was spattered on the carpet and furniture near the body.

At the time of the shooting, so far as known, Heath and Mrs. Dodge were the only persons in the house, no servants being employed by the woman under arrest. Heath had been given a contract to paint the interior of the house.

### LOWELL PASSES ALBANY

Spindle City Climbs to Cities of First Rank in Population

Washington, Sept. 19.—The population of three Massachusetts cities has been announced. The population of Lowell is 106,294, as compared with 94,860 in 1900, an increase of 11.9 percent.

The population of Holyoke is 57,730, as compared with 45,712 in 1900, an increase of 26.3 percent.

Pittsfield during the past decade increased from 21,735 to 32,121, a gain of 47.6 percent.

All of the cities show a healthy growth. Lowell alone being under the average percent of increase shown by American cities by the thirteenth census, although it now enters the class of cities of first rank, with a population above 100,000.

Lowell passes Albany, her nearest rival in 1900, by more than 6000. She is passed in rank by Dayton, O., Atlanta and Grand Rapids, Mich., of the cities which she outranked in 1900.

## ALIENISTS DECLARE

SPENCER IS INSANE

Murderer Ordered Committed to an Insane Asylum

Springfield, Mass., Sept. 19.—That Hertram G. Spencer, self-confessed murderer of Miss Margaret Blackstone and responsible for a reign of terror for many months in this city, is insane, was the unanimous verdict of four alienists who examined him, the two representatives of the government agreeing with their colleagues of the defense.

Judge Sanderson, in the superior court, then called Spencer before him and ordered him committed to the insane asylum at Bridgewater for an indefinite term. Should Spencer at any time show signs of recovered sanity he will again be formally examined and, if declared sane, will be placed on trial for the murder.

### ROSE PITONOF'S FEAT

Boston Girl Easily Outswims Two Muscular New York Women

New York, Sept. 19.—Miss Rose Pitonof of Boston, aged 16 years, accomplished the most remarkable feat of distance swimming ever seen in these waters by stroking with the tide from the foot of East Twenty-third street to Coney Island light in 5 hours and 8 minutes.

According to the chart this course in river and harbor is 16½ miles, but considering the wide detours which she made, one of which resulted in the sensational finish, she must have traversed all of the 17½ miles at which her performance is estimated.

In water so cold that it benumbed her rivals, she had for unexpected competitors two muscular women whom she defeated with ease, although one of them tied with her to the end of the course.

### METCALFE A BOLTER

Bryan's Editor Promises Support to Republicans in Nebraska

Lincoln, Neb., Sept. 19.—Richard L. Metcalfe, defeated Bryan candidate for the Democratic nomination to the United States senate against Congressman Hitchcock, and associate editor of Bryan's Commoner, has bolted the Democratic ticket.

He sent an open letter to C. H. Aldrich, Republican candidate for governor, in which he promises him his support during the campaign. It is understood that he will take the stump for the Republican candidate if it is desired.

W. J. Bryan is not saying anything. He has been in the state a week and absolutely refuses to make a statement.

## THE BUSINESS PROSPECTS

The Democrats of the country are counting their chickens, when there is a grave question as to whether they can hatch them.

This country has not forgotten the lean years under the last Democratic administration, nor the leaner years that were in prospect if William J. Bryan were elected.

The fear of Democratic success has already impelled European investors to withdraw on their holdings in the

United States. There is no sentiment with them—they are outsiders, and they know by experience that American investments are unprofitable under any but Republican administrations. They are risky enough in any country at any time, and men with money to invest can testify to that, but under Democratic administrations the money is hoarded, for the chances for loss are much greater.

When the investor loses, the laboring man finds hard times, and the same is true when the investor refuses to invest at all.

Let New Hampshire and good old Portsmouth do their share toward Republican victory in November.

## HIS EXCUSE

Mr. Roosevelt, in defending his recent violent attack on the Supreme Court of the United States, excuses himself by saying that in one instance he was only voicing the views of Mr. Justice Harlan in his dissenting opinion.

But Mr. Justice Harlan did not shout out those views, with clenched fists, before an excited multitude.

Mr. Roosevelt points to Abraham Lincoln's utterance about the Dred Scott decision, but Mr. Lincoln never stooped to appeal to popular passion.

Mr. Roosevelt says that President Taft when a judge, welcomed public criticism, but Judge Taft never counseled a denunciation of the court in a stump speech for not conforming to the will of the people.

Mr. Roosevelt is trying to lock the stable door after the horse has been stolen.

## BIRDSEYE VIEWS

The death rate in the death registration cities and states of the United States dropped to 15 per thousand and of provisionally estimated population last year, according to the forthcoming United States census bureau's bulletin on mortality statistics for 1909, which has been submitted to Director Durand by Dr. Cressy L. Wilbur, chief statistician for vital statistics.

In 1908 the death rate in the Census Bureau's registration area was 15.4 per thousand and in the bureau's annual report for that year, issued last spring, it was stated that it is evident an era of low mortality has begun. The death rate for 1909 is, the bulletin states, lower than that for any previous year of registration and probably is the lowest that ever occurred in the history of the United States.

From San Francisco comes the report that Charles M. Schwab, president of the Bethlehem Steel Corporation, is to meet Prince Tuan Hsun, uncle of the emperor of China, in that city next week to "close a deal" for the building of a fleet of war vessels for China. In support of the assertion that American shipyards are likely to be given the work of building the warships, John A. McGreggor, president of the Union Iron Works is quoted as saying that he is informed that plans drawn by the Bethlehem Steel company have been favorably considered by the Chinese government.

## AMONG OUR EXCHANGES

Prohibition in Maine

Maine adopted prohibition many years ago and it was thought that thereby the liquor question was taken out of politics. But that was a great mistake, for the liquor question has been a burning issue in state politics, ever since and has been a prolific cause of bad government in the state. In every state election this question has come up to obscure other state questions, and long-headed reforms are unattainable, because with the liquor question ever uppermost, it has been impossible to get a square verdict of the people or to elect legislators pledged to reforms.

While this struggle has been going on for so many years liquor has been freely sold in Maine and a grave danger of the case is the fact that houses have been converted into "blind tigers" and "speakeasies." The state maintains an expensive force of deputies to enforce the prohibitory law, there is no public income from licenses, and the testimony of those who know is that there is more hard drinking and drunkenness in a Maine city than in cities of other states that are "wide open."—Newark Star

## England's Newest Battleship

The Orion, of course, considerably surpasses the original Dreadnought in all respects save speed, in which the two will probably be equal. There has been an increase from 18,000 to 22,500 tons and from 12 inch to 13.5 inch guns. Also the Orion has a capacity of four thousand tons, which is more than that of any other ship in the British navy and which will, of course, give her the greatest advantage of an exceptionally wide radius of action. Her torpedo equipment is described as uniquely powerful.

## A TIMELY TOPIC.

BY  
GEORGE H. MARTIN,  
Sec'y Massachusetts Board Education.

## Weak Points in Our Education

THE statement frequently made that the schools are wholly intellectual in their aim is not true. I have been attending educational meetings for 40 years, and I have heard more addresses and discussions on moral education than on any other subject. The training in the normal schools is distinctly moral and religious in its character. In all their work in moral teachers have the intuition of the children in their favor. I believe that the institutions of childhood are essentially sound. The two weak points in the system are the country school and the high school. In the small country school, the teachers have less experience and they change frequently. The discipline is more lax and intermittent; the surveillance less close, and the social necessities less urgent. There is more interference by the parents than in the city, and the process of consolidation brings with it in many cases a train of evils of its own. The huddling of a considerable number of children of both sexes and of various ages in a conveyance without oversight results in a much more rude, coarse, and sometimes indecent conduct.

The difficulties in the high school grow out of the age of the pupils. A great majority of the teachers have neither the knowledge nor the experience to deal with the new problems which arise. The department organization is an element of weakness. I look upon the movement to bring this system down into the grammar school with much misgiving. Its advantages cannot compensate for the lack of intimate knowledge of pupils and of a steady, daily pressure by one wise, firm, sympathetic teacher.

Certainly a torpedo weighing nearly a ton, carrying 250 pounds of gunpowder and dispatched the extraordinary distance of 17,000 yards at a speed of forty knots is such a submarine destroyer as we have not known before.

Comparison between the Orion and our own new monsters, such as the Arkansas and Wyoming, is interesting and not discouraging to the American navy. Our ships are the larger, having 26,000 tons displacement to the Orion's 22,500, and their armor is probably a little the heavier. Their estimated speed is a half knot less, but American ships have a habit of developing greater speed than was estimated, and we shall not be surprised to find the Arkansas and the Wyoming showing as much as the Orion. As to the batteries, it is an open question which is the more effective, the American of twelve 12 inch guns or the British of ten 13.5 inch guns. We may, of course, confidently reckon it as impossible for the two ever to be pitted against each other, and we may regard without agitation any efforts elsewhere to build possibly hostile ships which would outclass them.—New York Tribune

## Not Many Like This

Dioegenes is hereby solicited to make a journey to Bronx Borough, New York, and hang up his lantern. There lives in that locality a retired building contractor, a gentleman of independent means, who, though never holding office, has taken considerable interest in clean politics and strongly supported, last year, the successful candidacy of Borough President Miller. Miller, being grateful, appointed his friend assistant superintendent of buildings, a position paying \$4000 a year, and the nominee accepted, took time to look about him, and then resigned, giving the unprecedented reason that he was not earning his salary and was not justified in taking it. "I felt that I could be of service to the public by my experience in the building line," he explains; "but I found there was absolutely nothing for me to do but draw the salary. I was an executive with nothing to execute. The job was a sort of Garden of Eden affair created out of nothing. The superintendent himself can do all the work of the office in two hours a day." Then followed his resignation. Hall and farewell to the honest man—his name is Winters—who tendered it.—Boston Transcript

## NAVY ORDERS

Commander F. W. Kellogg, from the Naval War College, Newport, R. I., to command the Indiana.

Commander J. D. MacDonald, to charge of first light house district, Portland, Me.

Lieut. Commander F. L. Sawyer to E. W. Bliss company, Brooklyn, N. Y.

Lieut. Commander F. N. Freeman, from Naval War College, Newport, R. I., to command reserve torpedo divisions and U. S. S. Atlanta, navy yard, Charleston, S. C.

Lieut. Commander P. Symington, from Naval War College, Newport, R. I., to office naval intelligence, Navy department.

Lieut. S. I. M. Major, from Naval War College, Newport, R. I., to bureau of steam engineering, Navy department.

Lieut. J. F. Bellweg, from E. W. Bliss company, Brooklyn, N. Y., to New York Shipbuilding Company, Camden, N. J., connection fitting out Burrows, and to command when placed in commission.

Ensign W. E. Reno, when discharged treatment at Naval Medical School Hospital, Washington, D. C., to Terry, R. H. McCulloch has been appointed a paymaster's clerk, duty naval station, Cavite, P. I.

The Lawrence, Goldsborough and Rowan have arrived at San Pedro; the Hull, Truxtun, Paul Jones, Perry, Preble and Stewart at San Diego, and the Cassar, Potomac and Pontiac at Norfolk.

The Samar, Albany, New Orleans, Rainbow, Bainbridge, Barry, Chaney and Dale have sailed from Shanghai for Nanking; the New York from Shanghai for Hongkong; the Thetis from Cristobal for Bluefields, and the Lebanon from Hampton Roads for Portsmouth, N. H.

Have your cleaning done by Robbins' power machine, whether your house is wired or not. Rugs, carpets, draperies and furniture. F. A. Robbins, 61 Market street.

ENTERTAINED  
AMESBURY  
FIREMEN

FRANKLIN PIERCE VETERAN FIREMEN ARE HOSTS TO BROTHERS FROM AMESBURY AT CLARK'S ISLAND.

A party of fifty of the Amesbury Veteran Firemen were the guests on Sunday of the Franklin Pierce Veteran Firemen at an outing down the harbor.

They came over on the morning train and were met at the depot by their hosts and motor boats were taken to Clark's island where a shore dinner was served. Cakes and fish chowder, etc., were plentiful and it was a very enjoyable occasion.

One of the features was the presentation of a hat of many colors to Mr. John Flanagan of the Franklin Pierce by the Amesbury veterans. It is a beauty, and John has promised to wear it when the Eureka takes the first prize money.

The visiting firemen returned to this city late in the afternoon, well pleased with their outing and satisfied that the Franklin Pierce crew are winners when it comes to being hosts.

CONGREGATIONAL  
NATIONAL CONVENTION

Boston, Sept. 19.—What prominent Congregationalists declare will be the most important gathering of members of their denomination ever held in this country will occur in this city next month, when the national council of the Congregational churches of the United States will hold its 14th triennial session. From Oct. 10 to 20 the council and allied organizations will be in session in Tremont Temple, with overflow meetings in Park street church and the New Old South church, and one mass meeting in Symphony hall.

Practically all the national societies of the Congregational church will join in the convention. Fully 5000 delegates are expected to be in attendance. A notable feature will be the observance of the centenary of the organization of the American board of commissioners for foreign missions. At this celebration, congratulatory addresses will be read by representatives from more than fifty missionary organizations of other religious denominations in the United States and Europe.

Annual meetings will be held by the Congregational Education society, Congregational Home Missionary association, American Missionary association, Congregational Church Building society, Congregational Sunday School and Publishing society, Congregational Board of Ministerial Relief and the Congregational brotherhood.

At the opening meeting of the national council in Tremont Temple, Monday evening, Oct. 10, Gov. Draper will welcome the delegates on behalf of the state, Mayor Fitzgerald on behalf of the city and Rev. A. Z. Conrad, pastor of the Park street church, on behalf of the churches of Greater Boston. The response will be made by the moderator of the national council, Thomas C. MacMillan of Chicago.

Elaborate arrangements have been made by the reception committee for the entertainment of the delegates.

## MYRON W. WHITNEY

Famous Boston Bass Singer Dead at Age of 75

Sandwich, Mass., Sept. 19.—Myron W. Whitney, once famous basso, died on Sunday at his home in this town. He was in his 75th year and for several months his health had been failing, though his family hardly expected of the end so soon.

Mr. Whitney was one of the pioneers of the summer colony who settled in the Plymouth county pine forests, near Waboby lake, some 15 years ago, and for seven years he had maintained a fine year-round residence in this town.

He was an ardent sportsman, and up to the time he was confined to the house a few months ago he went fishing every day, and had the record for catching more and bigger fish in the lakes and ponds more than any other person.

He achieved world wide fame as the

basso of Gilmore's peace jubilee after the close of the Civil war, and had sung in all the great cities of the earth.

Mr. Whitney, Henry Clay Burnbee, who is now living in Portsmouth, N. H., and Tom Karl, George Frothingham, Arthur Hitchcock, Frank L. Crowell, George R. Titus, Gertrude Calor, Georgia Cayvan, Imabella McCulloch and Mary Beebe were members of the original cast of Gilmore's and Sullivan's "Pinafore," which was first produced in the Boston theatre on April 14, 1879, by the Boston Ideal opera company. The early triumphs of the famous Bostonians are well known and Mr. Whitney did as much as any one toward the success of this essentially American opera company.

The story of his musical work and achievements would fill many pages. He leaves his wife and one son.

## HOTEL DE WITT

A hotel with home-like comforts. Clean, cool, comfortable rooms. American plan, \$2.00 per day. Special rates for permanent guests and commercial travelers. On dining room is the coolest in town.

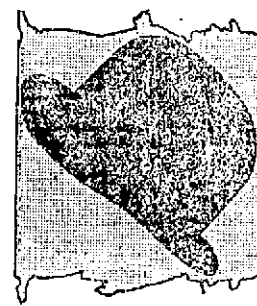

QUINN & RUXTON, Proprietors.

## MARCRELLI-BALDINI

Omero Macrelli, machinist, of Beverly, Mass., and Miss Ida Baldini, daughter of Mr. and Mrs. F. Baldini of Portsmouth were married at City Hall today by City Clerk Lamont Hill-ton.

It's now all off with the quiet conditions that have prevailed for years on Daniel street, especially at night.

### A Summer Hotel Is

Closed

Congregational Pastor Away  
On His Vacation

Many Vessels Sought Harbor in the  
Northeast Wind

Kittery, Me., Sept. 19.

Kittery correspondent's telephone,  
295-5.

Mrs. Charles Rudolph rendered sacred violin solos at the Methodist church Sunday at morning worship.

Mr. and Mrs. Herbert L. Baker of the Point were guests of Mr. and Mrs. Arthur Baker yesterday.

Three Elliot high school graduates last June and well known in town have left for the following advanced schools: Myra Worster to Gorham Normal, Majorie Farnell to Tillam Seminary and Helen Worster has left for South Portland where she will train for a nurse.

Miss Maude Haley is reported as being not so well, much to the grief of her many friends.

A penny social was given at the Methodist church on Thursday evening.

Mr. Arnold Bradbury, who passed the summer here, has resumed his studies at Cornell, this being his junior year.

Mr. and Mrs. True Canney recently entertained their daughter and her husband, Mr. and Mrs. Herbert Edson of Boston.

Mrs. Eliza Fernald is the guest of Mrs. Anna Cooke of North Hampton. Miss Heloise Whittier, a teacher at the Shapleigh schools, is to board with Mrs. Hannah Bartlett.

Mrs. Roberts, who has been visiting her sister, Mrs. Robert Brown, has returned to her home in Everett, Mass.

Rev. Edwin Leslie of the North Kittery Methodist church will soon resume his studies at Boston University.

Mr. and Mrs. John Grant passed Saturday and Sunday in Manchester, N. H.

Mr. Frank E. Donnell acted as night watchman during the absence of Mr. Grant.

The Eagle is due to sail now very soon, after her long visit at the yard.

The Wentworth Hotel closed today after a most successful season. York Rehoboth lodge holds its regular meeting on Thursday evening of this week.

Kittery Point

Kittery Point correspondent's telephone, 295-5.

Mr. Harold S. Chambers passed today in Manchester on business.

Rev. John Jones, in the absence of Rev. I. James Merry, preached at the Congregational church on Sunday.

Mrs. Charles Rudolph of Kittery was a recent visitor in town.

Rev. I. J. Merry and Mrs. Merry are enjoying a month's vacation at Five Islands, Me.

Mr. Victor Sawyer has accepted a splendid position in Lynn and with Mrs. Sawyer will soon leave for there.

Miss Julia Hinds of South Boston passed Saturday and Sunday as the guest of Mrs. Eliza E. Bray.

Mr. and Mrs. Thomas Seaward and little daughter Maryline of Rochester returned home today, after a week's visit with Mr. and Mrs. Henry C. Blake.

Mrs. Edwin J. Moulton has accepted a position as teacher in Cherryfield, Me.

Mr. and Mrs. Winfield Tobey and daughter Beverly are guests of Mrs. Tobey's grandmother, Mrs. Julia Todd.

Ralph P. Cobb today resumed his duties at the navy yard, after two weeks' convalescence from injuries sustained in falling into the hold of the collier Brutus. A ladder which Mr. Cobb was climbing fell outward, and he dropped eighteen feet into a heap of iron. His escape from death or terrible injury was almost miraculous.

The magnificent double rainbow hung in the eastern sky over Gerrish Island Saturday evening was the wonder and admiration of all who saw it.

Miss Katherine Thaxter is visiting at Wareham, Mass.

Mrs. Louis W. Parady and daughter Louise, who have been visiting Mrs. Parady's parents, Mr. and Mrs.

John H. Parrott, returned Sunday to her home in Surlingvale.

Frisbee Brothers have chartered the three masted schooner Helena to load 300 tons of coal for them at New York.

The British schooner R. Carson, while lying at anchor abreast Wood Island, was run into at daylight this morning by the coal barge Comra and had her flying jibboom carried away.

The little schooner yacht Seafarer, commanded by Capt. Edward Joyce of Medford, Mass., well known here, arrived at Columbus, Ceylon, Aug. 17, on her round-the-world voyage. The Seafarer was built at East Boothbay last winter, not as Boston, as stated in the Boston Herald today.

The Gloucester fishing sloop Annie Noyes, which sank on Draveboat Harbor bar two weeks ago, was broken up by Saturday's northeaster and her wreckage strewn that harbor. Her crew of three men, who have been camped on the beach near the wreck in a vain effort to save her, were still there Sunday. The Noyes was blown into the harbor for clams to bait trawls when she stranded on the ebb tide.

A large number enjoyed the annual picnic of the Kittery Yacht club on Frisbee's Point, Chauncey's Creek, on Sunday, and the affair was voted one of the most successful in the history of the club. The return was made by moonlight.

Clad in a coat of war color instead of the regulation black worn by the colliers, the collier Lebanon arrived in the harbor during the night.

The schooner yacht Gundred, owned by Benjamin Vaughan of Boston, was in port Saturday.

The north east storm which suddenly struck the coast during the night forced into port a large fleet of eastern coasters which left Boston Sunday homeward bound. Among the early arrivals were the schooners J. Kennedy, Cole, for Calais; Annie Gus, Kelly; George R. Smith, Mitchell; Mary F. Cushman, Wallace; and Annie M. Preble, Bunker, all for Machias; Mary Ann McCann, Sellers; Fannie F. Hall, Hutchins; M. H. Reed, Grant; W. D. Mangum, Flye; and Portland Packet Gardner, all for Bangor; Hume, Nash; and Ella May, Cooper, both for Rockport; Mary E. Lynch, Dow, for Stonington; R. Carson (British), McLawn, for St. John, N. B.

The tug M. Mitchell Davis on Sunday towed the four master schooner Augustus H. Babcock to Portland, where she will have her deck caulked and then load with fruit box shooks for Demerara, British West Indies. The Davis is due to return today.

### "BLUE MOUSE" IS LIKED

Big Audience Given Evening of Fun at Waterville

It was sparkling fun let loose last evening when "The Blue Mouse" was released to run across the stage and amuse a big audience. Nothing has been seen in Waterville quite like "The Blue Mouse." The crowd seemed to be delighted with it, but the general impression was that "The Blue Mouse" would not be the choice of a woman's club for production by amateurs.

It was the greatest mixup ever concocted. There was something doing all the time, yet it was not one of those plays wherein bewildering mixes exist. The audience could keep run of the doings at all times and the humor of the thing was very strong.

The story of the play was a simple one, but it caused much trouble. A young secretary engages a prominent actress, "The Blue Mouse," to pretend that she is his wife, in order that she may attract the attention of the president of the railroad for which the young man works, and secure for him, through the aid of her wiles, a position as a division superintendent. She succeeds but the hearts of several are nearly broken, and a couple of happy homes nearly torn in sunder. When explanations are made, however, all is right.

The crowd left the hall at the end of the first act, each face wearing a broad grin.—Waterville Sentinel, Sept. 17.

The same company will present the same play at Music Hall, this city, on Saturday next.

### Woman as a Traveler.

When a woman who is traveling is assigned to her room in a hotel she looks up the hotel rules on the door and carefully reads them. When she comes to one as follows, "No washing of clothes permitted in this room," she gives a satisfied sigh. Then she unpacks her trunk, rings for hot water and within an hour has the mirror covered with handkerchiefs pasted there to dry, and has hose, underwear, waists, etc., hanging over the back of every chair. Then she gets out her diary and notes in it how much money she has saved. "There are said to be some very historic places in this town," she notes after detailing her wash, "but I will not have time to see them."—Atchison Globe.

## RURAL SCHOOL IMPROVEMENTS

Value of Making the Building and Grounds Attractive.

INSTILLS A HIGH IDEA OF LIFE

Fosters a Desire to Build Up and Not to Tear Down—Teaches How to Live Cleanly—Suggestions For Beautifying a School Yard.

How an attractive schoolhouse with neat and well kept grounds will tend to benefit any community and its surroundings is aptly described in the Kansas Farmer by F. Lincoln Fields of Burlington, Kan., who says:

"It has been said that new homes may come, old barns must go, but the old schoolhouse will do forever. However, this has not been my observation. My observation has been that the old schoolhouse or the new schoolhouse represents the whole neighborhood in a lump. The old or the new and up to date schoolhouse is characteristic of the whole neighborhood. A look at the schoolhouse tells you in a way how the

ATTRACTIVE SCHOOL HOUSE AND YARD.

majority of the people in that certain district live and respect prosperity and up to date living. When you see the old schoolhouse you see few modern, up to date farm homes, and when you see the new schoolhouse you see many modern farmhouses and new barns. Also when community interest is strong and all work together for the good of the neighborhood and school we see better schoolhouses and surroundings.

"While visiting in another county, in driving out into the country, I admired the well kept farm homes we passed by, before we reached the schoolhouse, but when we came to the building I saw plainly that the schoolhouse and yard represented the vicinity. The schoolhouse was a beautiful brick structure with (some) modern fixtures, and, best of all, the building was well cared for. Around the school yard was a good fence; also a neat walk leading to the door. While there were no flowers or trees in the yard, it was seeded to blue grass and clover, and there were several nice large shade trees just outside the fence around the yard, which furnished nice shade.

"Everything in the schoolroom represented neatness. The walls were clean, the windows and seats were clean, and the organ showed signs of good care. Under the room was a good basement where coal was kept. In short, everything about the school house and yard was beautiful and inviting. And I was quick to observe that the school house and yard were very unlike ours. Our schoolhouse is a big old style room with four rows of double seats. There is no fence, no trees, no flowers, no grass, no hitch posts, nothing attractive. When I pass it during vacation weeks the yard reminds me of a temporarily deserted horse lot.

"I think the farm children deserve the very best schoolhouse that can be constructed. It should be built as though it were to be inhabited by human beings from morning until evening; hence it should be built somewhat like a dwelling house with the exception of bedrooms. The interior furnishings should be ample and modern in every way. The school yard, like the schoolroom, should be planned very much like the home yard. For it is intended for children and should be planted to trees, flowers and grass; also cement walks, with plenty of space for a playground, and the school ground should be neatly fenced.

"And after we get the modern schoolhouse and neat and trim surroundings it requires the willing heart and hands of the teacher, pupils and parents to make the school house and grounds homelike and the most attractive meeting place in the district. The modern school room and grounds create in the children a better desire to go to school and stimulate in them a real love for country life and a realization of its possibilities; also teach them all how to live cleanly in a modern house and to care for flowers and trees. A beautiful, sanitary school building and yard have a telling effect on the children who attend there. They give them a high idea of farm life, refined feelings, a desire to build up instead of to tear down, and what they learn and observe there are used as stepping stones to make their tread upward in after life. So let each rural school district work for a modern school house and yard, for the best is none too good for country children."

# STOLEN WHEEL IS RECOVERED

JACOB MARSHALL'S BICYCLE IN  
POSSESSION OF ITALIAN, AND  
IT HAD BEEN PAINTED AND  
NUMBERS FILED OFF.

Three weeks ago Jacob Marshall, the janitor of the Methodist church, left his bicycle standing outside of the church, and while absent about ten minutes, the wheel was stolen. The police were notified at the time, but failed to get any clue.

Saturday, the wheel was recovered at the Lend bicyclo shop on Pleasant street. The wheel was brought in by an Italian to be repaired and although it had been painted over and the numbers filed off, it was recognized by the men in the shop as a National bicycle that had been sold to Mr. Marshall and the police were notified. Every effort had been taken to disguise the wheel and it would have not been anywhere, but in the shop from where it was sold.

The Italian was not arrested, but was questioned by the police and he claimed that he purchased the wheel from a Poleander, who had paid \$17 for it, and that he in turn had paid

The family of Mr. Herbert O. Prime returned on Sunday from The Wells, where they have been passing the summer. They came back by automobile.

Mr. James H. Coleman of Newington has purchased the house of Mr. E. N. McNabb on Kent street, which he will occupy as a residence, after the first of November.

Mrs. Scudder Klyce left on Sunday for Annapolis, Md., where her husband, Lieut. Klyce, U. S. N., has been ordered for duty at the Naval Academy.

Frank Fearhahn, who has been passing the summer with his parents and Mr. and Mrs. Herman Fearhahn left on Saturday for Valparaiso, Ill., where he will attend a medical school.

Mr. Warren T. Billings, industrial agent of the Boston and Maine railroad, accompanied by his wife and a party of friends, were here on Saturday.

Mr. Frank Ham and family left on Saturday for Lake Wentworth near Wolfboro, where they will sojourn for the next two weeks at the Coleman cottage.

The condition of William Shields, who was operated upon a few days ago at the Cottage hospital, was reported on Sunday as somewhat improved.

The many friends of Mrs. Harry A. Titus, who has been passing the summer at North Prescott, Mass., will be pleased to learn that she is greatly improved in health and will shortly return to this city.

Miss Florence Entwistle, elder daughter of Mr. and Mrs. William T. Entwistle, on Sunday celebrated the seventh anniversary of her birth and received many tokens in commemoration of the event.

Mr. and Mrs. Joseph A. Mercier left on Sunday for Bass Point, Mass., and from there they will join a party of friends for an automobile trip to New York. They expect to be absent about two weeks.

## YACHT CLUB

# ON CLAMBAKE

The annual clambake of the Portsmouth yacht club was held on Sunday at the Wentworth farm, now owned by the American Agricultural and Chemical company. The members and guests to the number of 100 went up in the club's fleet of motor boats, and there were various forms of amusements for the crowd before and after the bake.

The bake was served at one o'clock and it was an excellent one, with all of the things to make a bake good. William H. Phinney was the bake master and he did a fine job.

## CONVENTIONS IN CONCORD

Beginning on Tuesday This is a Busy Week in That City

Concord, Sept. 19.—Delegates from the several branches of the New Hampshire Federation of Labor will assemble in this city next Tuesday for

# PUTS AN END TO STOMACH MISERY

Indigestion, Gas, Heartburn or Dyspepsia Vanish in Five Minutes

Every family here ought to keep some Diaprepin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out of order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your Pharmacist for a 50 cent case of Pope's Diaprepin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach. No nausea, Debilitating Headaches, Dizziness or irregular griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pope's Diaprepin is a certain cure for out of order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery at any drug store, waiting for you.

These large 50 cent cases contain more than sufficient to cure almost any chronic case of Dyspepsia, Indigestion or any other Stomach trouble. Woman loves a clear, rosy complexion. Barcock Blood Bitters purifies the blood, clears the skin, restores ruddy, sound health.

The annual convention of that body, State President, Mayor French, of this city, will preside and make the address of welcome to the delegates. The local labor unions will be represented at the convention as follows: Central Labor union by its president, John S. B. Davis; Iron Moulders' union by Charles H. Hayward, and the Merrimack lodge, No. 144, Blacksmiths and Helpers by Freeman H. Saltmarsh.

The coming week promises to be a busy one in Concord. Three state conventions, Democratic convention on the 23d, convention of King's Daughters on the 21st and 23d, and Federation of Labor on the 23d, Royal Arcanum smoke talk on the 21st, Republican caucuses on the 23d, and two cracking good theatrical productions are here this week.

## NORTH HAMPTON

Mr. and Mrs. E. M. Smith and son Paul have been enjoying an outing at Rangeley Lakes, Me.

Rev. and Mrs. D. E. Adams, of Wellesley Hills, Mass., have been spending a week in town with Mr. and Mrs. C. J. Ross.

Rev. Mr. Smith, New Hampshire home missionary, preached last Sunday at the Congregational church. Milton Spencer Meris, the little son of the pastor, received the rite of baptism from his grandfather, Rev. D. E. Adams.

Miss Austin, of Portsmouth, has been spending a week with Miss Annie L. Smith.

Mrs. Leon Berry was called to Boston last week by the serious illness of her brother, George Tourillott, who is now recovering after a severe surgical operation.

Mr. and Mrs. James Perkins, of Rye, have recently announced the engagement of their daughter, Miss Christiana Perkins, to Postmaster Fred L. Dow, of this town.

The many friends in town of Mr. and Mrs. Herbert A. White regret deeply to learn that they are contemplating a change of residence and may remove to Rye.

Miss Marion H. Locke, of Exeter, spent Sunday with relatives in town. Mrs. Arthur E. Seavey entertained the Progressive club on Thursday.

## HAMPTON

Mr. E. C. Bennett, of Boston, Mass., died on Saturday evening, Sept. 10, at the home of his sister, Mrs. W. B. Mack, of chronic nephritis. Prayer was offered at the house on Tuesday morning and the remains were taken to his old home at Hells, Me., for interment.

James Birchard, who has been a great sufferer from nephritis since March, is now so much improved as to be able to walk over and call on his neighbors in Rye.

Percy Blake left town to begin his studies in Durham college.

Mrs. J. Q. Bennett and Miss Bennett

attended the aviation meet in Squantum, Mass.

At the grange Friday evening, September 16, was observed as Children's night. The program was a charge of Miss Julia Locke.

Dr. Lincoln of Boston, is the guest of Miss Powers.

Mr. and Mrs. Charles Stickney expect to return to town, if Mrs. Stickney's health permits, within a few days.

## PLANS WERE APPROVED

Navy Department Blamed for North Dakota Accident

Washington, Sept. 19.—The striking finding of the naval court which investigated the recent oil explosion and fire on the battleship North Dakota to the effect that the accident was due to faulty designs and installation, appears to have led to a great deal of comment in the press. This fact has caused the navy department to make public the following statement:

"From the published reports of the accident on the North Dakota the impression seems to have gone forth that the builders were wholly responsible for it. In fact, the installation of the oil burners is after designs that have been used in other navies for a long time with great success. Furthermore, all the detailed plans were approved by the navy department. Under the circumstances no one can be held accountable unless it is the navy department, provided the installation was in accord with the approved designs. As a matter of fact, owing to the nature of the accident and the extreme rapidity with which the terrific heat was evolved, the evidence as to the cause of the accident is not very clear."

## MAD DOG BITES A MARINE

Sergeant B. O. Wiley Taking the Pasteur Treatment

Annapolis, Md., Sept. 19.—Sergt. B. O. Wiley, keeper of the naval academy rifle range, is undergoing the Pasteur treatment at the naval medical school hospital, Washington, having been bitten by a dog which was found to have had a fully developed case of rabies.

The dog bit Sergeant Wiley a week ago, being afterward shot by the soldier. Sergeant Wiley was treated at the naval hospital here, and the head of the dog was sent to Washington for examination. It was found that the dog had a fully developed case of rabies and Sergeant Wiley was at once transferred to the Washington hospital for treatment.

The new city hall will be ready the last of this month, but it will be the middle of October before all of the departments are installed in the new old building.

# Theatrical Topics.

## Making a Newspaper.

The average reader of the daily newspaper, it is safe to assert, knows very little of the process by which this wonderful production of the present century is made ready for the eyes of the public day after day and many times daily. The various steps toward the consummation should be generally known. Such a knowledge indeed is quite a liberal education in itself and indirectly exerts a powerful influence for good not only upon the favorite journal but upon society as well. Possessed of this information the reader knows of the trials, the tribulations, the anxieties, the expense, the enterprise, the celerity, the fascinations of the work and it certainly will act unconsciously in the formation of opinions and in the set-

Christian Science Monitor. The mechanical part of the outfit will be supplied by the American Type Founders company, Whitlock Printing Press company and the Mergenthaler Linotype company, and every detail from the supplying of "copy" of the news and gossip of the big fair, the setting of type, the assembly, the make-up of the forms, the printing and folding will be in full sight of patrons. The paper is promised to be a very creditable and most interesting sheet. It will contain among other things a complete list of the exhibitors, the programs of the concerts and other entertainments and all sorts of news and chat about the people connected with the exposition. It will be distributed free "hot from the press" to all comers.

SCENE FROM "THE WOLF."

ting of values on news and editorial decisions. All this will be clearly demonstrated at the great Mechanics Exposition to be held the entire month of October in the Mechanics building on Huntington avenue, Boston. The exposition will be open every day excepting Sundays, from 10 o'clock in the morning until 10 o'clock at night and during these hours a little daily newspaper will be published under the editorial control of the

"The Wolf," Tomorrow Night's Attraction at Music Hall.

"The Wolf" the powerful play of the Hudson Bay fur country, by Eugene Walter, which will be presented at Music Hall tomorrow with an all star cast, comes here from brilliant success at the Lyric theatre in New York and at the Grand Opera House, Chicago, and a return engagement in New York this season.

This drama, which is in three acts and three scenes, possesses many novelties, and is fraught with intense human interest. It is a story of the far north. The treatment of the theme—the attempt of an American railway engineer to betray the daughter of a Scotch settler with whom a young French-Canadian is in love—is handled boldly yet skillfully by Mr. Walter, who has provided at least one climax that takes rank with the most thrilling ever devised for the American stage. It is the duel in the dark, in which the victor is only distinguished by the glimmer of a match.

The same all-star cast, each of the six characters being ideally cast.

## ADVERSE WEATHER

For Battle Drills of the Atlantic Fleet

Washington, Sept. 19.—It is doubtful if the Atlantic fleet ever before attempted to conduct battle drills in such adverse weather. It is impossible to maintain the frail targets on the ranges in the heavy seas that are rolling over the southern drill grounds. Necessarily these targets, composed of rafts upon which are erected lofty canvas screens representing the seaweather that the battleships can not stand anything like the rough weather that the battleships can. They begin to work in the seas and if the canvas is not torn away by the gale and the flying spray, the weak links for rafts are soon torn to pieces by the waves. The fleet has already lost two rafts this year and as these structures cost about \$20,000 apiece the damage is serious.

## POSTMASTERS MAY GO

Washington, Sept. 19.—Acting Postmaster General Grandfield has issued an order granting all New England postmasters leave of absence for not more than five days to enable them to attend the annual meeting of the postmasters' association of New England, to be held at Boston, Oct. 19.

The roads are very dusty and a good rain is much needed.

# Little Harbor Chapel

Undenominational services will be held during July and August at 10.45 every Sunday morning.

Cars for Rye passing Little Harbor Road leave Market Square at 10.05 and 10.35. Cars pass Little Harbor Road returning from Rye at 11.50 and 12.20.

# All Are Welcome

## BEAVER BOARD

MAKES the place of laths and plaster and costs less. Will not crack, chip nor deteriorate with age. For new and old work. It is warmer in winter and cooler in summer. Especially adapted for bungalows.

## FOUR DROWNED ON WAY TO THIS CITY

**Motor Boat Swamped Off Newbury-  
port Bar and Four of the Six  
Men Lost Their Lives.**

Newburyport, Mass., Sept. 19.—Four men were drowned when the power boat Comfort foundered off Plum Island Saturday. Those drowned are:

WILLIAM E. FOUNTAIN, 28 years old, of Lawrence.

PERLEY E. FOUNTAIN, 19 years old, of Lawrence.

PATRICK O'BRIEN, 28 years old, of Dover.

JOSEPH BAKER, 40 years old, of Lawrence.

Charles S. Fountain, father of two of the young men who were drowned, saved himself by swimming ashore at Plum Island.

John W. Walton of Lawrence, who, with Perley Fountain and his father, tried to swim to safety, was forced to return to the boat and was rescued by the lifesavers.

The party, nearly all mill operatives out for a Saturday afternoon holiday, left Haverhill Saturday afternoon bound for Portsmouth, N. H. Reaching the mouth of the Merrimack river, just off Plum Island point, mountainous waves, raised by a brisk northeaster, were encountered. For a time the powerboat was allowed to roll in the water with the engine stopped and the men turned north in the open sea for Portsmouth.

It was not long before they realized their mistake, for the tiller rope broke and they were soon tossed about at the mercy of the waters. Holding fast

to the lee rail, William E. Fountain and Patrick O'Brien were caught by a wave and were carried overboard. Their companions saw them no more. Then the remaining four realized that theirs was a fight for life. With the few vessels and sponges at hand, they worked like trojans to bail out the swamping water, holding fast meanwhile to the boat, lest they go the way of their companions. Despite their efforts the boat soon filled and they floundered about waist deep in water, from which they were forced at last to take to the surrounding sea.

The elder Fountain, his son Perley and Walton who started to swim ashore, for Joseph Baker was drowned while trying to get out of the swamped boat. The remaining three men then started to swim to the rocky shore of Plum Island.

It was not long before the fight against the great seas proved too much for Walton and he was forced to return to the foundering craft he had just left. Young Perley Fountain soon after gave up the fight for life and sank into the waters. His father managed after a tough tussle to reach shore.

Walton, clinging to the power boat, raised a shout for help, which was heard by the lifesavers in their station on Plum Island. Despite the surf, which was piling high on the shore, the lifesavers manned their boat and

put out to the assistance of the man in distress. They reached him after a battle with the waves, and after transferring him safely to their boat they rowed ashore.

The life savers that night maintained a watch on the shore for the bodies of the drowned.

### EXETER

William Burnside Barker and Miss Caroline Julia Wales were married Wednesday evening at the Emmanuel church, Belknap Falls, Vt., by Rev. A. C. Wilson.

A reception followed at the home of the bride's parents, Mr. and Mrs. George R. Wales. Guests included Mrs. Charles W. Barker, of Exeter.

Mr. Abet J. Weeks as great representative attends the great council of Red Men, which opened last Saturday at Toledo, O., to continue throughout the greater part of this week. Mrs. Weeks accompanied him and they will visit many places of interest on the return trip.

Miss I. Louise Mason will this year have the supervision of drawing in a large Springfield, Mass., school at a material increase of salary over that received last year at Welleale, Mass. The Springfield schools open next Monday, but Miss Mason has spent the week there in preliminary work.

Early in October Mr. and Mrs. Albertus T. Dudley and daughter, Frances G. Dudley, will sail for a winter's stay in Europe. Their residence will meanwhile be occupied by Miss Elean Quimby.

Dr. Francis K. Ball, since 1899 instructor in Greek and German at the Academy, is about to assume a new post, master in the German department of the noted Browne and Nichols school at Cambridge, Mass. The best wishes of their many friends will follow Dr. and Mrs. Ball to Cambridge. Mr. Frederic E. Staebner, an instructor in mathematics for the past two years, has likewise retired from the Academy faculty. He will study civil engineering.

Gilman Grange, No. 1, will hold its annual harvest supper at Unity hall Monday night, September 19, at 6.30. All members are cordially invited to be present.

The Messrs. Whitley, proprietors of the Exeter Plumbing and Heating company, have leased the store on Water street long occupied by Mr. F. F. Batchelder as a harness shop, and will occupy it about Oct. 1.

There has been much worry, of late among the owners of naphtha launches, on the Swanscot river caused by the advent of a government inspector, who has come unheralded and unwelcome as a wolf among sheep, and imposed fines on the owners of the craft in the vicinity of Portsmouth harbor. There are many such launches on the river here, many owned in town, and also a large number in Newfields and the bustling to provide their craft with necessary equipments of the law, has been most onerous of late. Some are equipped now and others are fast equipping, while the inspector is hourly expected.

### SHORTEST GAME ON RECORD

Nine Innings Played in Thirty-Two Minutes

Atlanta, Ga., Sept. 19.—Mobile and Atlanta broke the world's time record for a baseball game here Saturday, when they played a full nine-inning game in thirty-two minutes. Mobile won, 2 to 1.

This remarkable record was made possible by the two teams going on the field and coming to bat on the run. Invariably the first ball delivered to each batter was struck at and hit, without any effort to "place" it.

Thirty-five assists in the field tell the story. Nevertheless there were some sensational plays and throws, as well as some clever catches by the outfielders. Only one base on balls was recorded and only one strikeout. There were four stolen bases, one sacrifice hit and one wild pitch, three two-baggers, one triple and one double play. It was a lively game.

### REACHED GREECE

Dover, Sept. 19.—Acting City Marshal J. J. and Deputy Sheriff L. D. Carter have received information to County Solicitor Hall to the effect that Nicholas Capsalis, who is wanted in connection with the murder of his aunt, Mrs. Marissa Capsalis of Somersworth, on Aug. 11, has left the country and is now in Greece.

It is supposed that he went by way of Somersworth, Biddeford, Me., and Hartford, Conn., where he disguised himself and left New York by boat.

It is also rumored that letters have been received from him from Greece by some of his countrymen. The authorities will look into the matter further.

## HELD IN \$20,000 BAIL

H. H. INGERSOLL, TREASURER OF  
YORK COUNTY SAVINGS BANK,  
CHARGED WITH EMBEZZLE-  
MENT.

Bliddeford, Me., Sept. 19.—Richmond H. Ingersoll, formerly treasurer of the York county savings bank, pleaded not guilty before Recorder Clarence B. Rumery in the municipal court on Saturday, to the warrants charging him with embezzlement of \$3300 of the bank funds, upon which he was arrested Friday.

After Ingersoll's counsel had waived an examination, Recorder Rumery found probable cause and ordered the respondent to furnish sureties in the sum of \$20,000 for his appearance before the supreme judicial court which convenes in Alfred next Tuesday.

Mr. Ingersoll immediately furnished bail with these sureties: Ex-Mayor Cornelius A. Horigan, Charles A. Moody, cashier of the First National bank; George B. Goodwin, Dr. Frank S. Warren, Police Commissioner Henry G. Hutchinson and Joseph F. Warren of Buxton, a relative of Mr. Ingersoll.

Saturday's brief hearing, like that of Friday, was held in Mr. Ingersoll's room at his home. Mr. Ingersoll, while more nervous than on Friday, maintained his self-possession throughout the proceedings. At the conclusion he thanked his bondsmen for their interest in his behalf and shook hands with each of them when they left the house.

County Attorney Fred A. Hoobs will present the evidence against Mr. Ingersoll before the grand jury at Alfred this week.

Mr. Ingersoll's counsel would not make any statement Saturday about the case, but it is believed Ingersoll will stand trial if indicted, and that his defence will be that the funds he is alleged in the warrants to have taken were not converted to his own use, but were used in making interest payments upon accounts in which discrepancies appear prior to six years ago, back of which period embezzlement prosecution cannot be maintained.

Mr. Hobbs said Saturday that he had no doubt that the former treasurer would be able to be taken to Alfred for trial at the coming term of the supreme court. He also said he expected Ingersoll would make a fight to clear himself.

## GARDNER FOR SENATOR

FORMER DEMOCRATIC CANDI-  
DATE FOR GOVERNOR WANTS  
TO SUCCEED SENATOR HALE.

Portland, Me., Sept. 19.—Obadiah Gardner, of Rockland, democratic candidate for governor two years ago, who was defeated for a second nomination this year by Governor Plaisted, has announced himself as a candidate for U. S. Senator to succeed Eugene Hale, whose term expires.

Charles F. Johnson of Waterville, also a former democratic candidate for governor, has already stated that he would announce his candidacy within a short time. Mr. Gardner's letter to members of the legislature is as follows:

"Rockland, Me., Sept. 16, '10.  
"My Dear Sir—I have received communication of similar import from all parts of the state, inquiring if I shall be a candidate before the next legislature for U. S. senator from Maine. Many of them come from members-elect of the legislature, accompanied by assurance of their support.

"While I do not wish to be thought precipitous in announcing by candidacy, yet certain other gentlemen have hastened to announce themselves as candidates, and I feel it my duty to my friends in order that no misunderstanding may be created by further delay on my part to announce that if my friends so desire I will be a candidate for U. S. senator. Respectfully yours,  
"OBADIAH GARDNER."

### FORTY MEN IN DARTMOUTH SQUAD

Start Football Practice With Good Material.

Hanover, Sept. 19.—Forty aspirants for the Dartmouth football team were

put through a snappy practice at both morning and afternoon sessions Saturday. The men were kept mostly on the regular preliminary work, but the afternoon skeleton formations were formed and a few plays were run through.

Three formations were made and in this combination the men worked with a snap that was surprising. In the first squad Needham played center; Boyland, quarterback; Captain Ryan, right half; Morey, left half, and Barredera, fullback. Other line-ups were: Bennett, center; Winslow, quarterback; Hogan, right half; Lovejoy, left half; Dudley, fullback; Rannum, center; Mullen, quarterback; Cheney, right half; Adams, left half, and Mercer, fullback.

A large number of men is expected to return before Tuesday, and from then until the first of October, when the first game is played, will be busy times on the oval. Sherwin, Ingersoll and Johnson of last year's eleven are to report this week.

The line-men were in the hands of Coaches Keady and Toban Saturday, and they kept them busy falling on the ball and running down punts. The quarterbacks were in charge of Brady, last year's leader. Head Coach Randall devoted his entire attention to the backs and taught them a few plays. The medicine ball is being put to good use, and all of the men have to toss it around to strengthen their arms.

### POLICE NEWS

Chief of Police Entwistle and Officer Shannon, while raiding a building on the corner of Market and Green street for liquor, Sunday, ran into a card game and arrested six men, all Italians.

The men were in a room playing cards with their money on the table, and were caught right in the act. They were charged with gambling and gave bail for their appearance in court this forenoon. They gave the names of Nino Caminati, Guesepha Caminati, Amoro Macerello, Nasseanno Campilli, Antonio Sorapente, and Albert Nari.

Saturday night a sailor from the Tennessee and a hospital apprentice from the Wisconsin got into an argument on Daniel street and were mixing it up in fine shape when Officer Philbrick appeared on the scene. Robert Dowhower, the sailor from the Tennessee was accompanied by two other sailors, and they rather objected to Officer Philbrick taking him to the police station, but it was no use, he had to come. Robert Long, the Wisconsin man, was badly used up and Dr. E. C. Johnston dressed his face. Long claims that he was attacked by Dowhower and was simply defending himself.

Sunday night, in addition to the assault cases, there were two drunks and one for safe keeping on the blotter.

### MRS. DRUCILLIA CLARK

Funeral Services Sunday Afternoon From Her Late Home.

The funeral of Mrs. Drucilla Clark was held at two o'clock on Sunday afternoon from her late home on Pickering street, Rev. Irving F. Barnes, the pastor of the Advent church, officiating. The four sons, Herman A., Elmer E., Albert and Frank C. Clark, acted as pallbearers. Interment was in the family lot in the Sagamore cemetery under the direction of O. W. Ham.

### MRS. ELIZA RAND

Funeral Held on Sunday From Home of Her Sister.

The funeral of Mrs. Eliza Rand was held at 12.30 Sunday from the home of her sister, Mrs. James A. Rugg, on Maplewood avenue, Rev. F. H. Gardner, the pastor of the Christian church, officiating. Interment was in the Sagamore cemetery under the direction of O. W. Ham.

### KILLED AT NEWBURYPORT

Edward Guynan Found on the Railroad Bridge Saturday Night. Edward Guynan, 15 years old, was found dead lying on the railroad tracks on the Newburyport bridge late Saturday night. It is supposed that he was struck by a train, for he was badly cut up. The body was discovered by the crew of a freight train that left this city at nine o'clock.

### GORDON HERBERT HEATH

Gordon Herbert Heath was buried at two o'clock, Saturday afternoon, from the home of his parents in North Hampton, Rev. B. S. Perkins, pastor of the Christian church, officiating. The bearers were Masters Marvin Perkins, Carl Moulton, Wellington Mcullen and Wilbur Drew. Interment was in the church cemetery under the direction of H. W. Nickerson.

### CHICAGO SECOND CITY

Makes Big Gains, But Does Not Equal New York.

Washington, Sept. 19.—The population of Chicago is 2,185,283, an increase of 486,708, or 23.7 per cent., compared with 1,698,575 in 1900.

There was a heavy automobile traffic on Sunday and this city got its share.

## TENNESSEE WINS

Sailors From Armored Cruiser De-  
 feated Eleven From Paducah

On Saturday afternoon an interest-  
 ing game of football was played on  
 Rice's field, Kittery, between eleven  
 from the U. S. S. Tennessee and the  
 U. S. gunboat Paducah, the former  
 winning by a score of 10 to 0. The  
 game was witnessed by about 500 per-  
 sons and was remarkably free from  
 rough playing.

For the victors Griddon and Oiling-  
 er did good work, while Verigier  
 played a good game for the losers.  
 The game was played under the new  
 rules and the forward pass was used  
 to good advantage by both teams.

## FORTIFY THE CANAL

President Wants Two Million Dol-  
 lars to Start the Work With

Beverly, Mass., Sept. 19.—President  
 Taft in his message to congress will  
 recommend an appropriation of \$2,-  
 000,000 to begin the work of fortify-  
 ing the Panama canal. He made this  
 announcement previous to leaving  
 Beverly for New Haven and Cincin-  
 nati.

Mr. Taft has always favored the  
 protection of the canal with great  
 guns, and he thinks the time has ar-  
 rived to begin the work.

The president will also recommend  
 to congress that provision be made  
 for two new battleships of the Dread-  
 naught type. Mr. Taft does not be-  
 lieve that the economy plans should  
 preclude the construction of at least  
 two battleships a year until such time  
 as the Panama canal is completed. He  
 believes that the canal will have the  
 effect of doubling the efficiency of  
 the navy, and that after it is in op-  
 eration the building of new battleships  
 can be cut down to one a year.

The president will reach Washing-  
 ton next Sunday, the 25th. The cabi-  
 net will begin a series of daily meet-  
 ings the morning of Monday, the  
 26th. It is expected that the cabinet  
 will meet with the president probably  
 every day while he is in Washington.  
 Secretary Ballinger, it is said, will  
 attend all the meetings and so far as  
 Beverly is informed the Ballinger  
 case will not be taken up.

Economy of administration in all  
 of the departments will be one of  
 the many subjects considered by the  
 cabinet. Estimates for the coming  
 fiscal year also will be considered at  
 great length. The president's supreme  
 court appointments will be discus-  
 sed with his cabinet advisers, although  
 the president has announced that he  
 will not make these appointments un-  
 til after congress is in session.

 ty, Smoko our 999 brand, and  
 you'll agree to this proposition. D. J.

# NAVY YARD

## Lebanon Arrives with Ammunition

## Second Cruiser Montana Expected Tomorrow

### Back to Work

Samuel Osgood of the central  
 power plant has returned to duty af-  
 ter three weeks' absence owing to  
 an injury to his hand.

### Must Come Here for Stores

Secretary of the navy has notified  
 the commandant of the yard that all  
 stores for the cruiser fleet shall be  
 assembled at Portsmouth, and that  
 none of the same shall be delivered  
 at any other navy station for these  
 vessels. The department appears to  
 be trying to straighten out this mat-  
 ter of fitting out ships at home ports  
 and directs that this rule be fully  
 carried out. This means that the  
 Portsmouth yard is to see these ships  
 at other times besides when repairs  
 are needed.

### Collier Arrives on Sunday

The U. S. S. Lebanon, Edward J.  
 Norcott commanding, arrived on Sun-  
 day with ammunition and stores for  
 the Tennessee and Montana. The col-  
 lier is tied up alongside the first  
 named vessel.

### To Shoot for Prizes

A detachment of marine from the  
 barracks and naval prison left today  
 for Wakefield rifle range, where they  
 will engage in target practice for  
 prizes during the next ten days.

### It Won't Do Any Good to Kick

A protest has been sent the navy  
 department by grocers and other  
 merchants in some of the navy ports  
 against the establishment of commis-  
 sary stores at navy yards where the  
 families of officers and enlisted men  
 can purchase provisions at cost. The  
 first kick comes in from Annapolis.  
 The navy department, while it may  
 give the protest of the civilians some  
 consideration, is likely to take no  
 steps to check the establishment of  
 these stores as the same is authorized  
 by congress and the pay corps is  
 simply acting according to law.

### Yard Commandant at Meeting

Commandant F. A. Wilner is in  
 Washington where a conference is  
 being held on matters pertaining to  
 the new system of organization and  
 division of work at yards.

### At Boston Yard

The North Carolina is at Boston  
 taking on coal.

### Another Cruiser Coming Tuesday

The U. S. S. Montana, Capt. John  
 G. Quimby, is expected to arrive at  
 the yard on Tuesday. She will dock  
 at the quay wall, near the coaling  
 plant.

### New Man at the Key

B. C. Walker, telegraph operator at  
 the Pensacola yard, has been trans-  
 ferred to this yard to fill the vacancy  
 caused by the resignation of operator  
 Page.

### Work for Boat Shop

Orders have been received in the  
 hull division to build six twenty foot  
 whale boats, and six twenty foot mo-  
 tor dories for general use.

### HANK AND LANK

Something New in Moving Pictures at  
 Music Hall

Today at Music Hall appears the  
 first of an inimitable moving picture  
 comedy pair, Hank and Lank. They  
 bound to be popular with your audi-  
 ences. Don't miss any issue of the  
 Hank and Lank series from the Es-  
 sanay factory.

In this instance our friend Hank,  
 the little fellow with the big ideas,  
 longs for an auto ride and "commu-  
 nicates to Lank a plan by which they  
 may obtain one. The suggestion he  
 offers is this: They will spot a good  
 car and when the chauffeur is near  
 Hank will throw a fit and the syna-  
 thetic Lank will induce the chauffeur  
 to take his stricken friend to the hos-  
 pital.

The scheme works perfectly. Hank  
 approaches the car, is suddenly  
 stricken and doubles up spasmodically  
 in an awful epileptic fit. Lank is  
 the first on the scene and waves vio-  
 lently to the driver of the car. This  
 latter proves sympathetic and offers

to get Hank to the hospital with all  
 possible speed.

In another moment Hank is en-  
 circled in the soft, pillowy leather  
 and enjoying the sport like a million-  
 aire. But as the near the gates of  
 the hospital Hank has thought twice  
 and leaps out of the machine unhe-  
 knownst to the driver, who hurries  
 on, supposedly with his sick man.

Later he finds Lank and tells him  
 about the joy ride. Lank is enthus-  
 iastic and anxious to try the scheme  
 himself. They locate another car and  
 Lank goes through with his stunt. Un-  
 fortunately for him, however, the  
 machine they have chosen is that of  
 a doctor, and when this latter exam-  
 ines Lank he quickly discovers that  
 the tall fellow is shamming.

Without the least hint of being  
 hep, the M. D. hurries out his medi-  
 cine case and doses the unfortunate  
 Lank with the bitterest herbs in the  
 pharmacopoeia. But this is not  
 enough, and with the aid of the  
 chauffeur he holds Lank prostrate on  
 the ground and reaches for his surgi-  
 cal bag. The sight of a long knife  
 starts poor Lank and he "beats it"  
 wildly down the street.

This is a brand new film to be seen  
 here tonight. Other new films are:  
 "The Vargaries in Love," Pathe.  
 "An Algerian Stud," Pathe.  
 "The Pony Express," Essanay.  
 "A Good Loser," Pathe.

## PERSONALS

George W. Boardman is visiting in  
 Concord.

Charles M. Flagg of Boston was a  
 visitor here today.

Miss Beatrice Hartford is passing a  
 week in Troy, N. Y.

R. V. Clark of South Berwick was  
 in the city on Sunday.

Miss Myrtis Becker will enter the  
 Tilton seminary at Tilton.

Dr. Charles A. Morse of Newmarket  
 was a visitor here today.

Mr. and Mrs. T. D. Noyes are pass-  
 ing a week in Bridgeton, Me.

George Pinder of Lang's corner has  
 entered the employ of W. E. Paul.

F. D. Butler and family have closed  
 their cottage at North Rye Beach.

Elvin Newton on Sunday reached  
 another milestone in life's journey.

Michael Barrett passed Sunday at  
 his former home in Lawrence, Mass.

Mrs. S. J. Coleard of Exeter is the  
 guest of her daughter, Mrs. Annie  
 Ham.

John Phelan on Sunday quietly ob-  
 served another anniversary of his  
 birth.

Miss Edna Willey will shortly take  
 up her studies at the Normal school  
 at Salem.

A. O. Caswell and family close their  
 cottage at North Rye Beach for the  
 season on Tuesday.

Ernest Stockbridge of Haverhill,  
 Mass., was a visitor here on Sunday,  
 making the trip by automobile.

Augustus Finnegan, who is employ-  
 ed in the postal service in Boston,  
 passed Sunday in this city with his  
 family.

Rev. E. P. Moulton, Free Baptist  
 pastor, has returned from his vaca-  
 tion and preached in the church on  
 Sunday.

C. L. Downing and wife have re-  
 turned to Williston, Mass., after a  
 month's stay with friends and rela-  
 tives here.

Miss Marie Cullen, who has been  
 visiting in New York, the past two  
 weeks, is expected to arrive home  
 this evening.

Charles W. Greene attended the  
 Rockingham county socialist con-  
 vention held on Saturday at Smithtown  
 village in Seabrook.

The many friends of our esteemed  
 citizen, Edward J. Moulton, will be  
 pained to learn that he is critically ill  
 at his home on Court street.

Mrs. Eugene Williams of South  
 street, who has been seriously ill at  
 the Cottage hospital, has so far re-  
 covered as to be able to return to her  
 home.

Mr. and Mrs. Frank A. Fagan of  
 Miller avenue, announce the marriage  
 of their daughter Alice, to Michael  
 A. Barrett, the wedding to occur on  
 October 6.

Naval Constructor John F. Hans-  
 com and Mrs. Hanscom of Philadel-  
 phia, Pa., are the guests of Mrs. Jus-  
 tin V. Hanscom and daughters, Is-  
 lington street.

Charles W. Andrews on Sunday  
 reached another milestone in life's  
 journey and received numerous tok-  
 ens in honor of the event, including  
 a large birthday cake from the mem-  
 bers of his family.

A party from this city attended the  
 annual outing of the New England  
 Telegraph and Telephone Company's  
 men at Combination park, Medford,  
 Mass. In the party were Wire Chief  
 Angus Bailey, B. Howard Roberts,  
 Frank O'Shea, John Wade, Thomas  
 Fralick, Herman Philbrick, Percy J.  
 Philmerman, Edward Harraden, En-  
 gene Hutchins, John Mc Masters and  
 Bartholomew Troy.

## EIGHT NEW CITIZENS

Three Portsmouth Men in the Group  
 That Was Naturalized

Eight men were naturalized at a  
 special session of superior court here  
 today.

Judge G. Pike of Dover presided.  
 Sheriff Ceylon Spinney and Clerk C.  
 H. Knight were in attendance. Uni-  
 ted States Attorney Holt examined  
 the applicants.

The following were naturalized:  
 James Fullam, Portsmouth.  
 Pasquale Minicello, Portsmouth.  
 Louis Alphonse Beaudot, Exeter.  
 Anders Peter Peterson, Deerfield.  
 Panteleon Nichopoulos, Portsmouth.  
 Frank Bergiel, Newmarket.  
 Farish George Lewis, Chester.  
 Otto Carl Bater, Windham.

Four cases were dismissed and two  
 continued.

An application was received from a  
 Portsmouth blacksmith, Benedict  
 Sampson, a native of Hanavatskycoln,  
 Iceland.
